

Dear Frankles,

As I sit here next to you I'm trying to think of something clever or cute to say. But that'd not me so I'll just write anything.

You and I are always in the same boat with the body situation - whether it's alone and Barry or Dan and Scott. Remember the night that you and Mandy slept over and I was in such a horrible mood after talking to Cher? And the next morning how Mandy was screaming "Good-bye Phil" when I was talking to him.

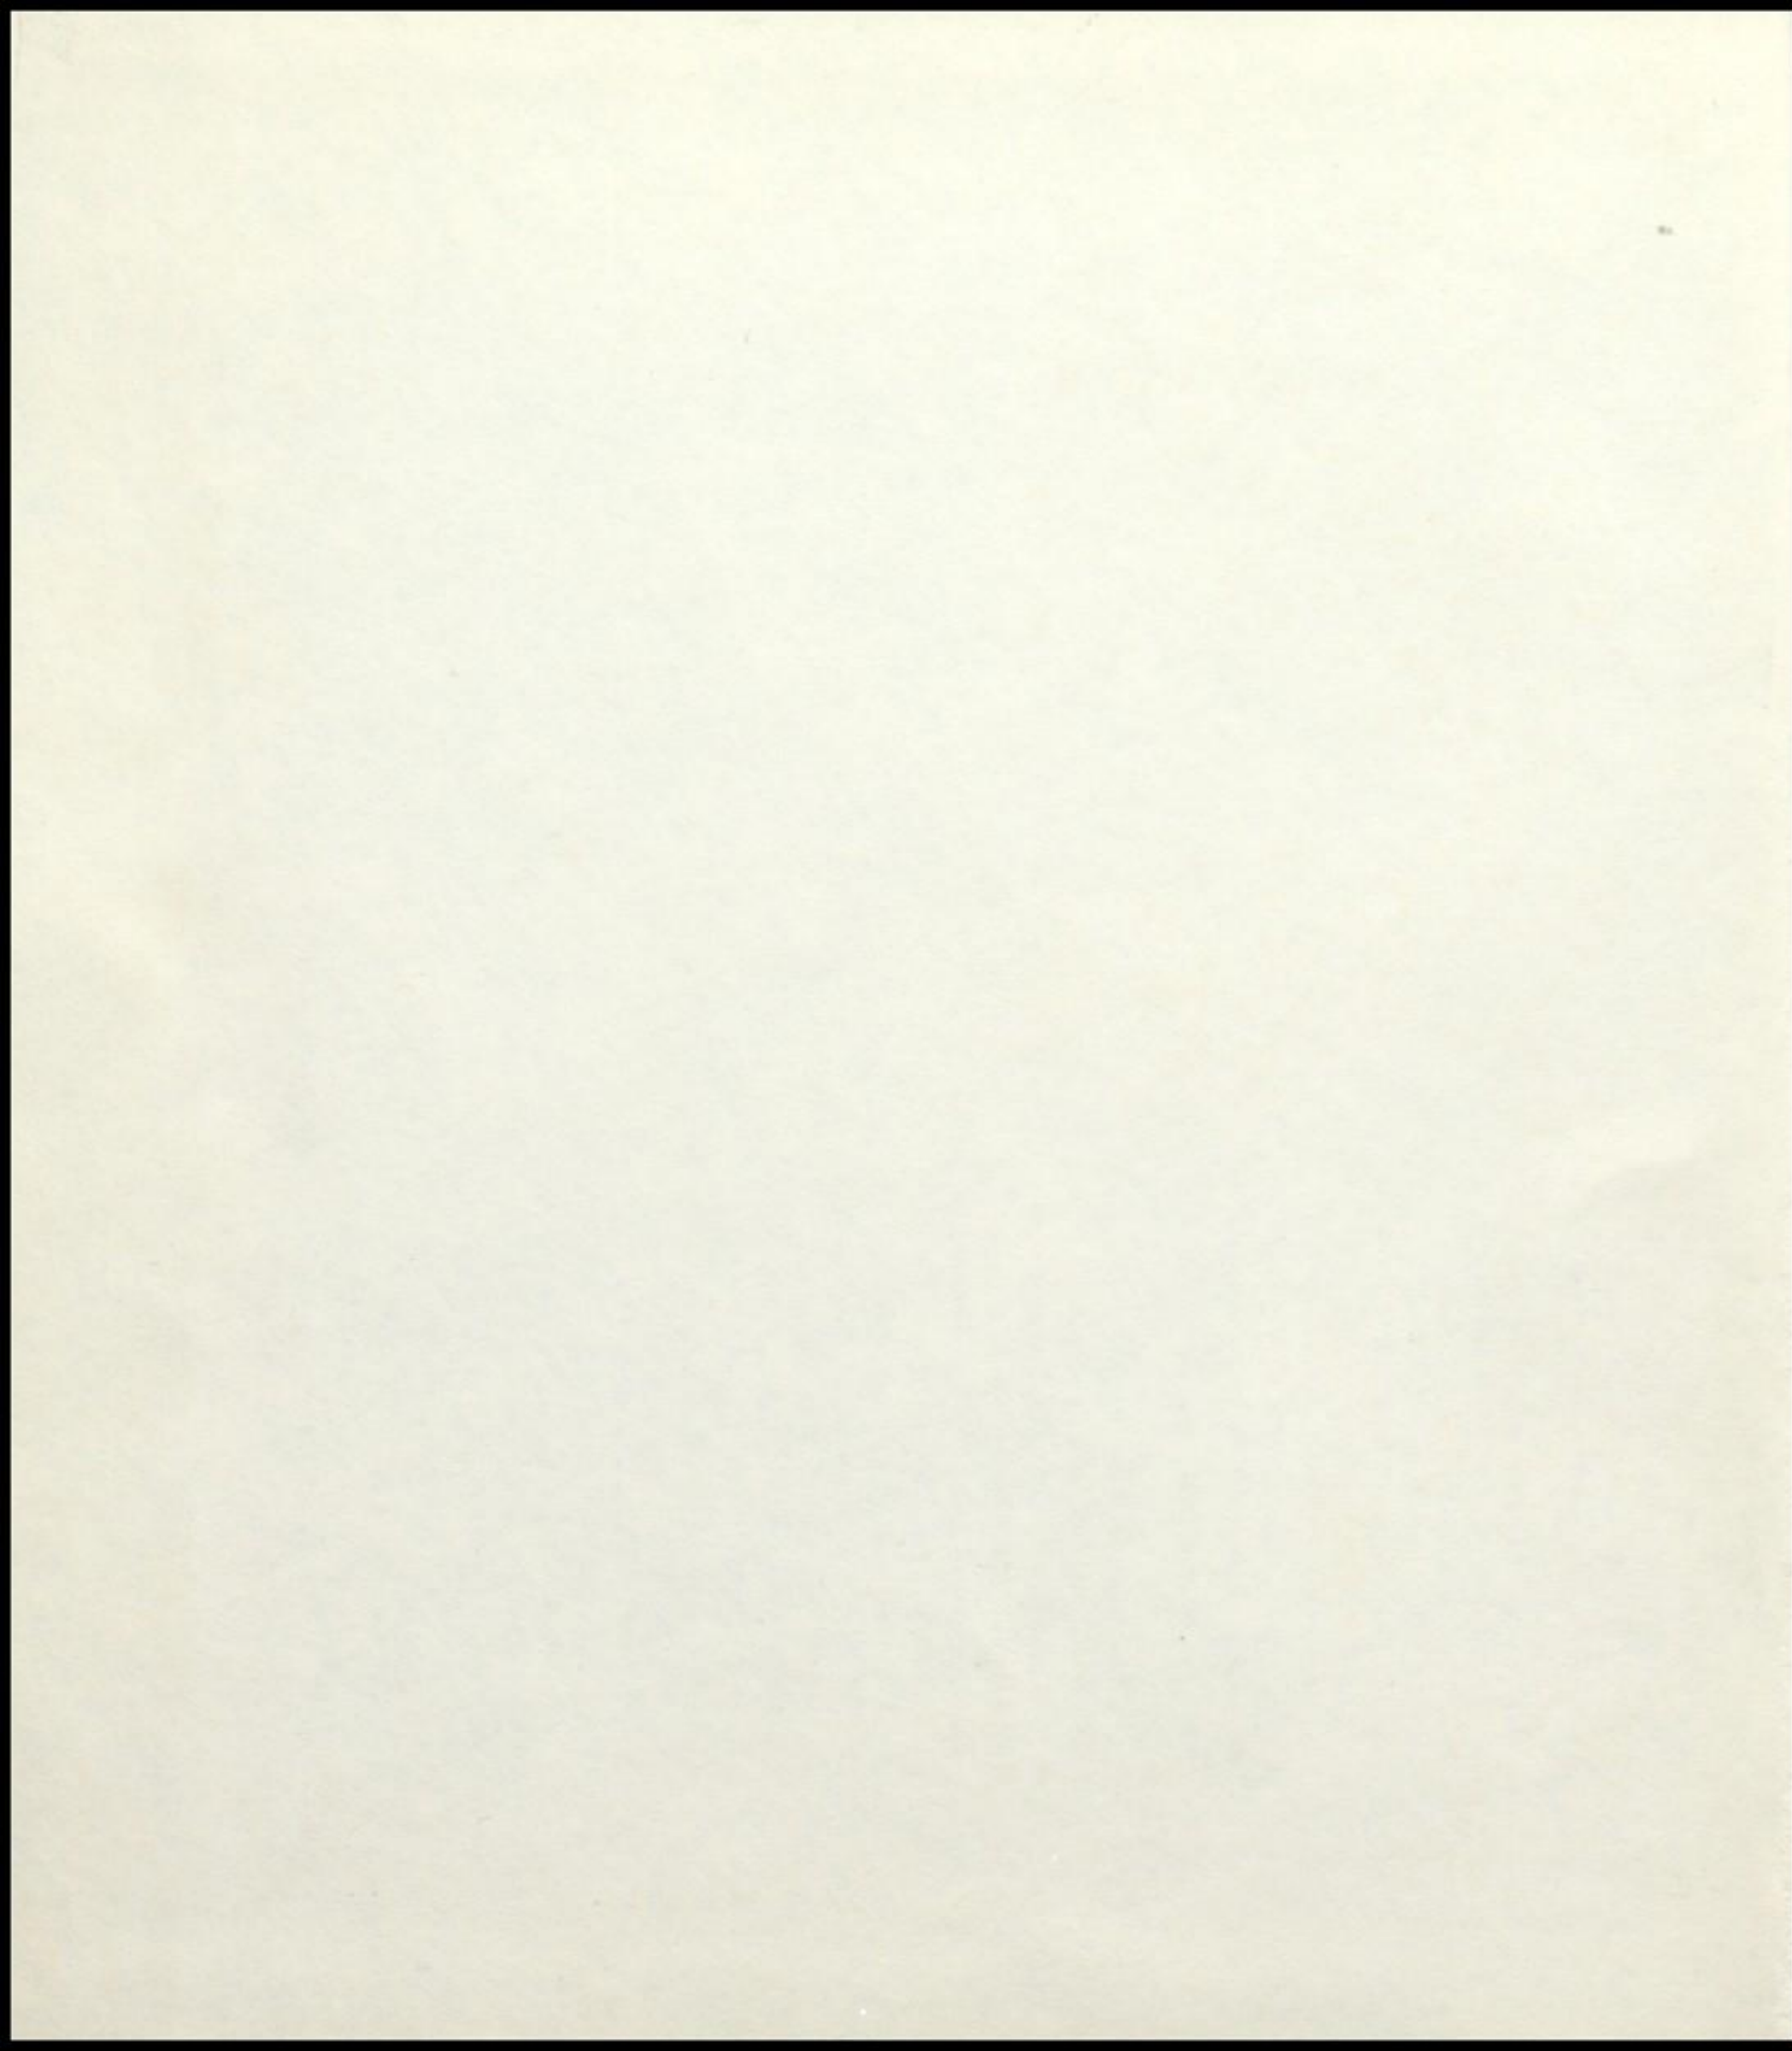

And now about the night at tower beach & the day we went out to breakfast at the pancake house. And then when we all were Hansfield bathing suits & seen sitting on the cars that minis.

And what about the time Cher, Ron, Andy, me, Maurice & you went bowling? Was that a game? I'll never forget all the elbows when sitting in front of Braham and how you & Cher helped me tell Andy off! And the gorgonzola when you & I hardly said a word.

And now we're all gone to prom - or shouldn't I mention it? I wonder how embarrassed Bob was when we all walked down stairs at minis? He really looked great - and we helped!

Yeah, I'd say we've had some pretty fun times together. I hope we both go to the same college - that would be fantastic!

Lots of love Linda (asch)

WESTIGES

1970
New Trier High School West
Northfield, Illinois 60093
(312) 446-5300

All statements in this yearbook are original contributions from the students, faculty, and administration of New Trier High School West. The views and attitudes are representative of individuals and do not necessarily reflect the general opinion of the school or the *Vestiges* staff.

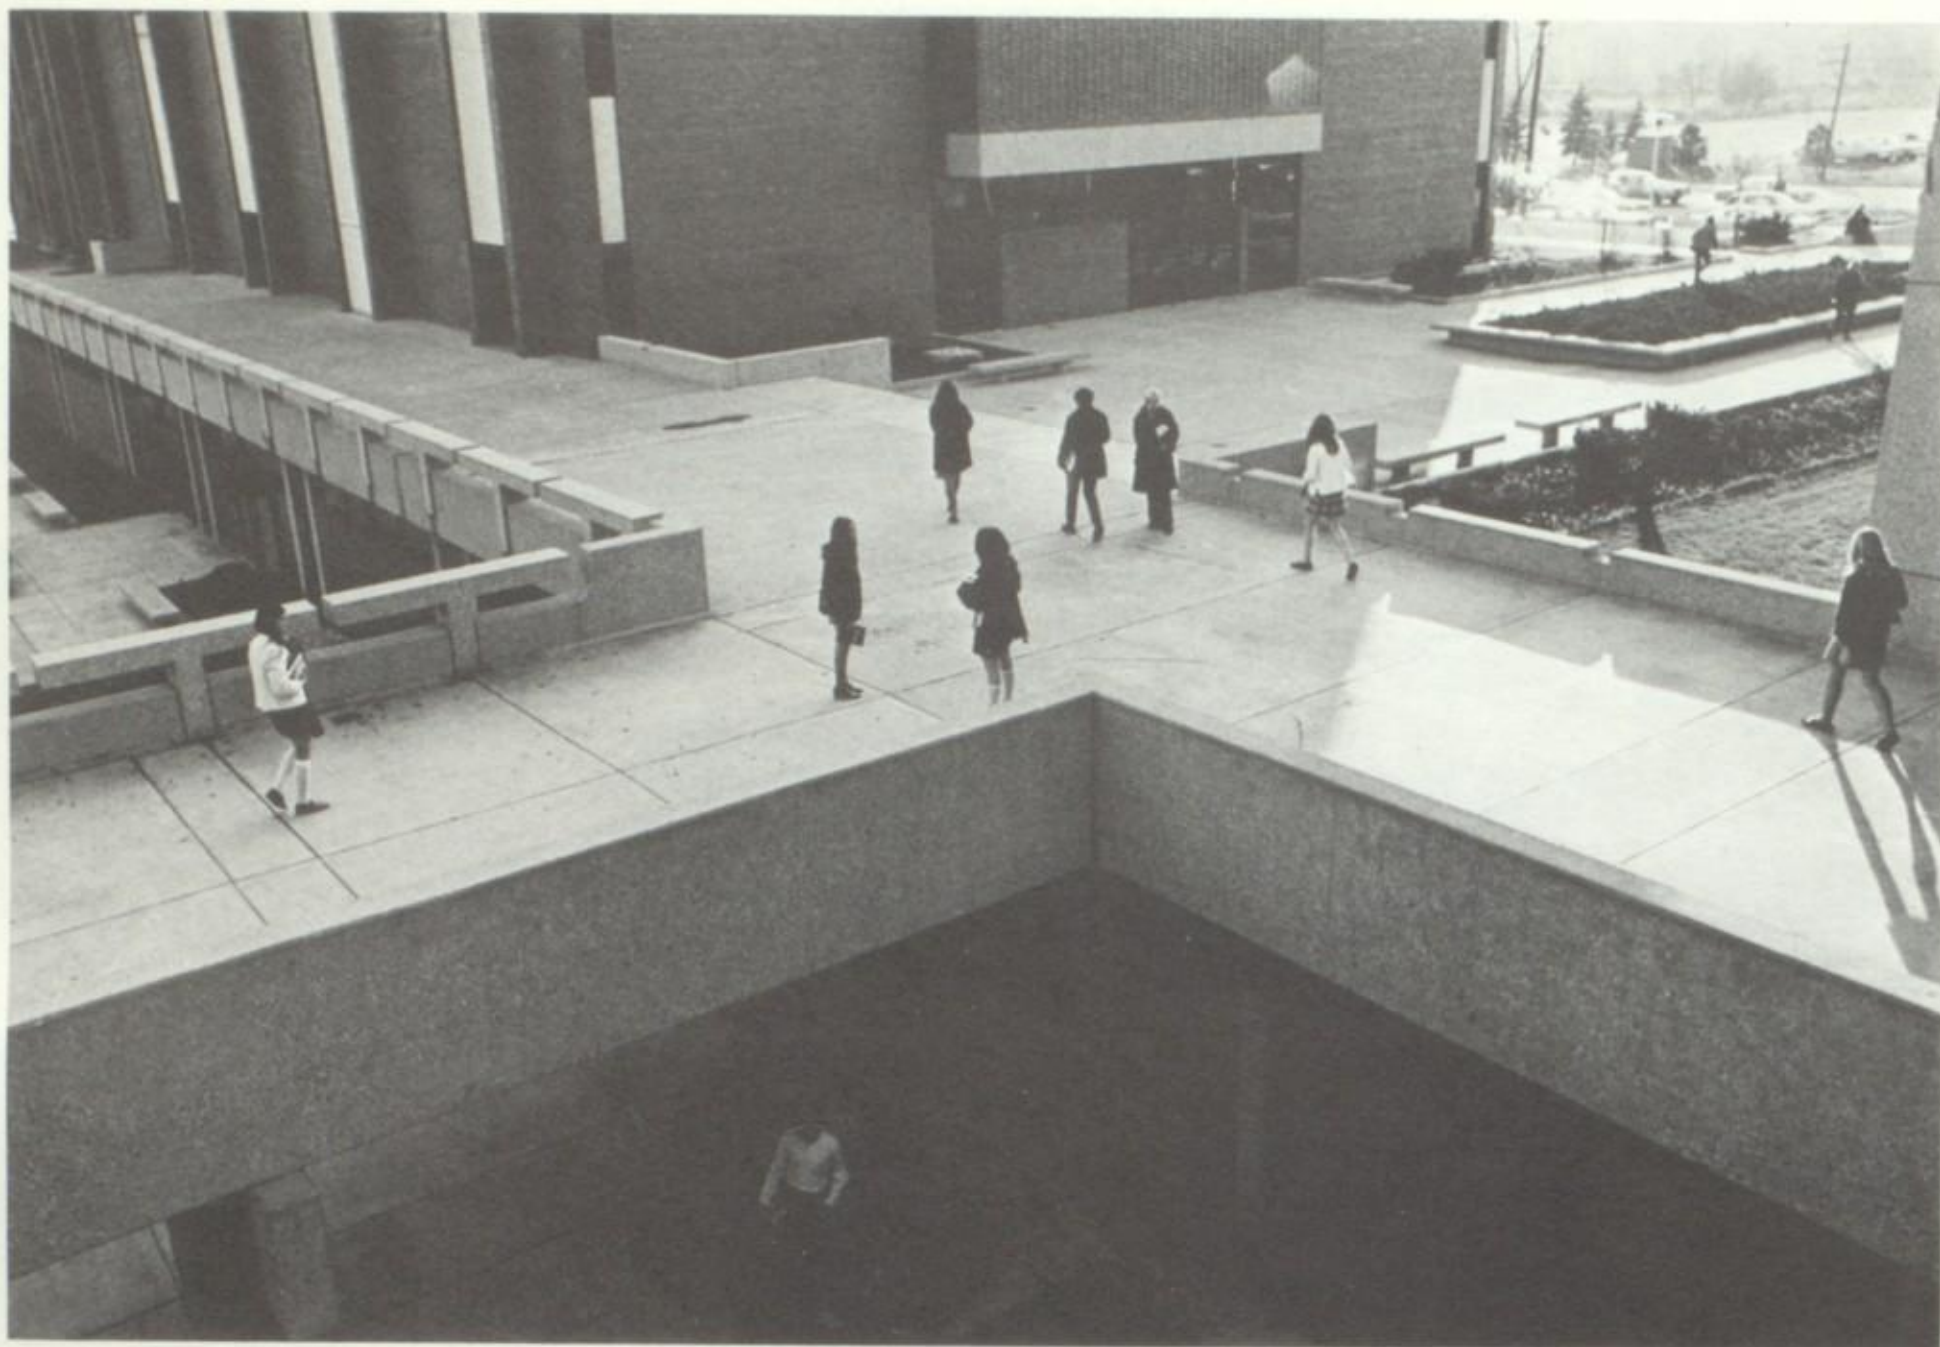

*Our purpose is to commit
minds to inquiry, hearts
to compassion and lives
to the service of mankind.
To what extent do you
think New Trier meets its
purpose?*

"More people wake up
during high school than
people think. So many
people I know—me also—
started caring so much
more in their years at
West."

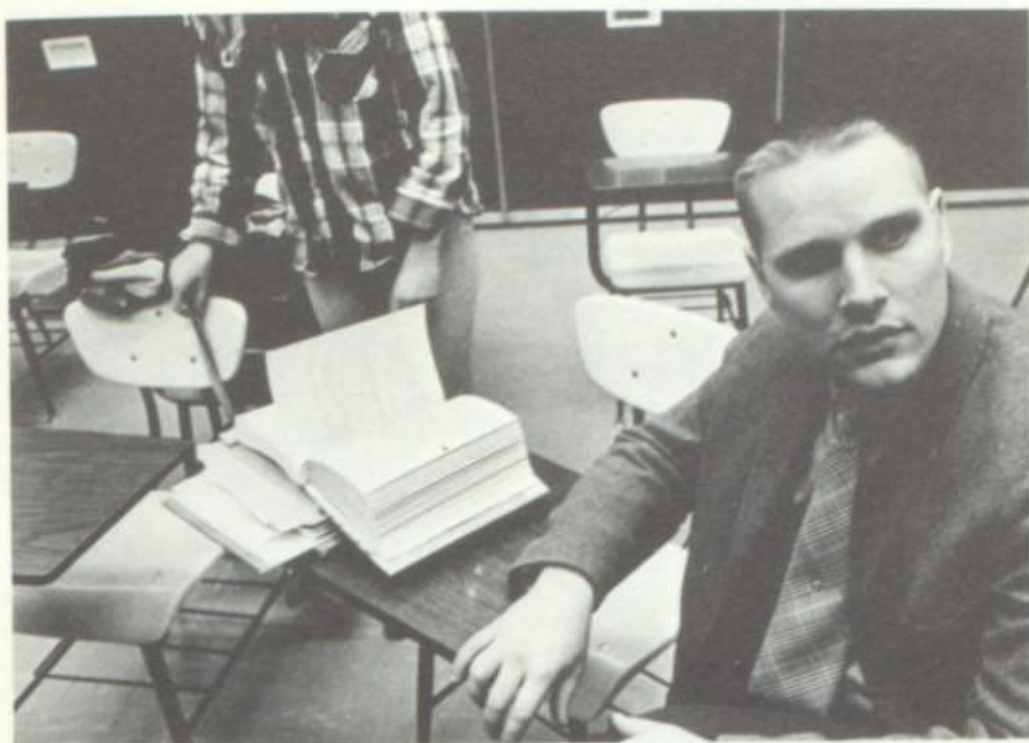

"NT-W is like most other schools where minds are committed to inquiry without choice, hearts are not committed to compassion, and lives are programmed to serve the ideas and ideals of others."

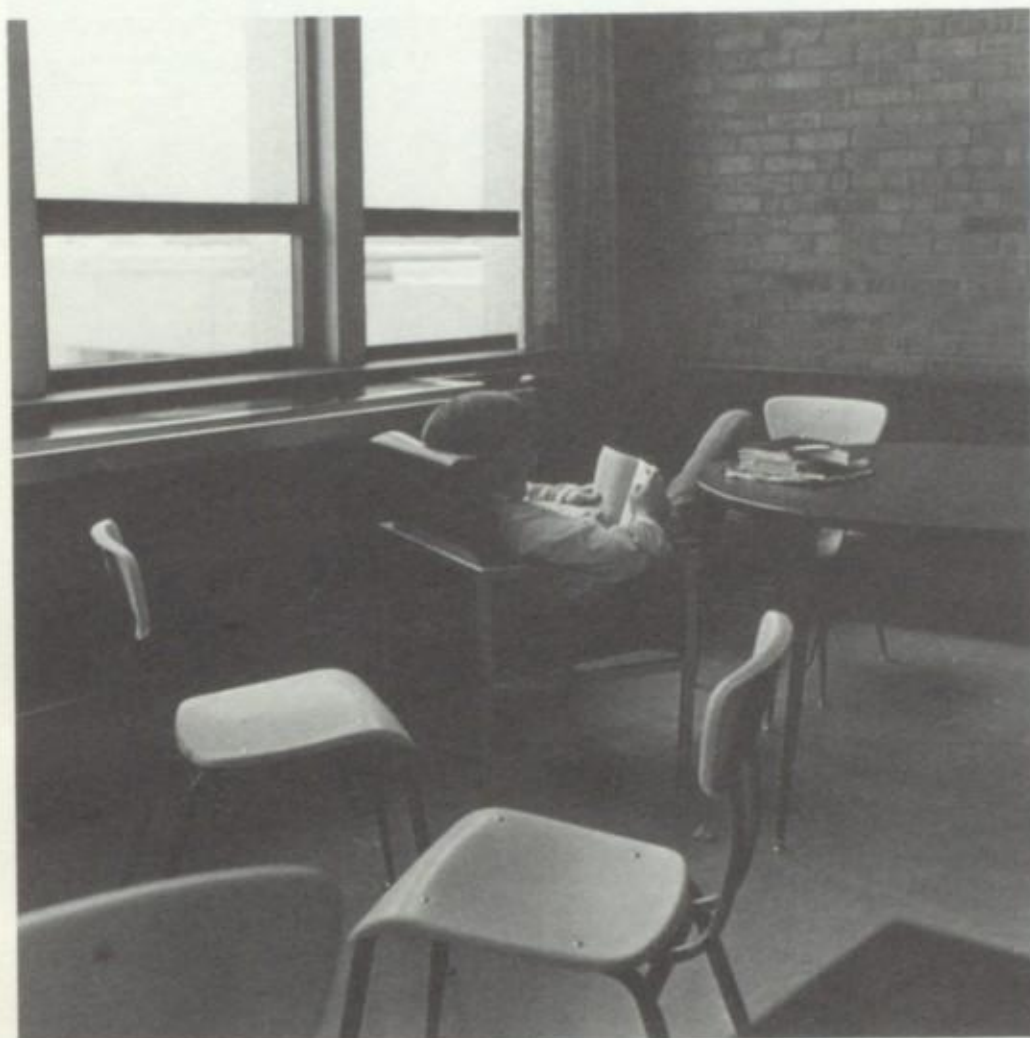

"New Trier is going nowhere to this goal. Its educational policy has created fear, dishonesty, rejection of new ideas, and apathy. They have failed miserably."

"We are only about 50% effective—maybe less—at least while students are here. The real test of that philosophy is what a student is doing and how he is living ten years out of NT-W."

"A service of mankind is not two years of mathematics."

"New Trier commits people to these because of its lack of these."

"If New Trier would forget that at one time it was a great school and realize that changes must be made to continue in its excellence, then NT would not have to make a false statement of philosophy because everyone will know that it is true."

"It's a goal—an ideal—and the essence of an ideal is that when it is accomplished it ceases to be an ideal. It says I think that we should 'dream no little dreams'."

What do you like and dislike about New Trier?

"Like students, dislike regimen,
dislike distance between and among
people, phonies."

"I dislike the irresponsibility
it teaches. It teaches that it is
better to lie than to tell the truth."

"I dislike the apathy and lack of
concern on the part of a number of
members of the school community."

"There is real need for improvement and growth on the part of all—but then that's what education is all about."

"I like the food, teachers,
some kids, but I dislike
being a slave to those
damn bells."

"We're all so ignorant of each other here."

"My general opinion of the faculty and fellow students is one of apathy."

"You have to get involved yourself in order to enjoy anything."

Why are you here?

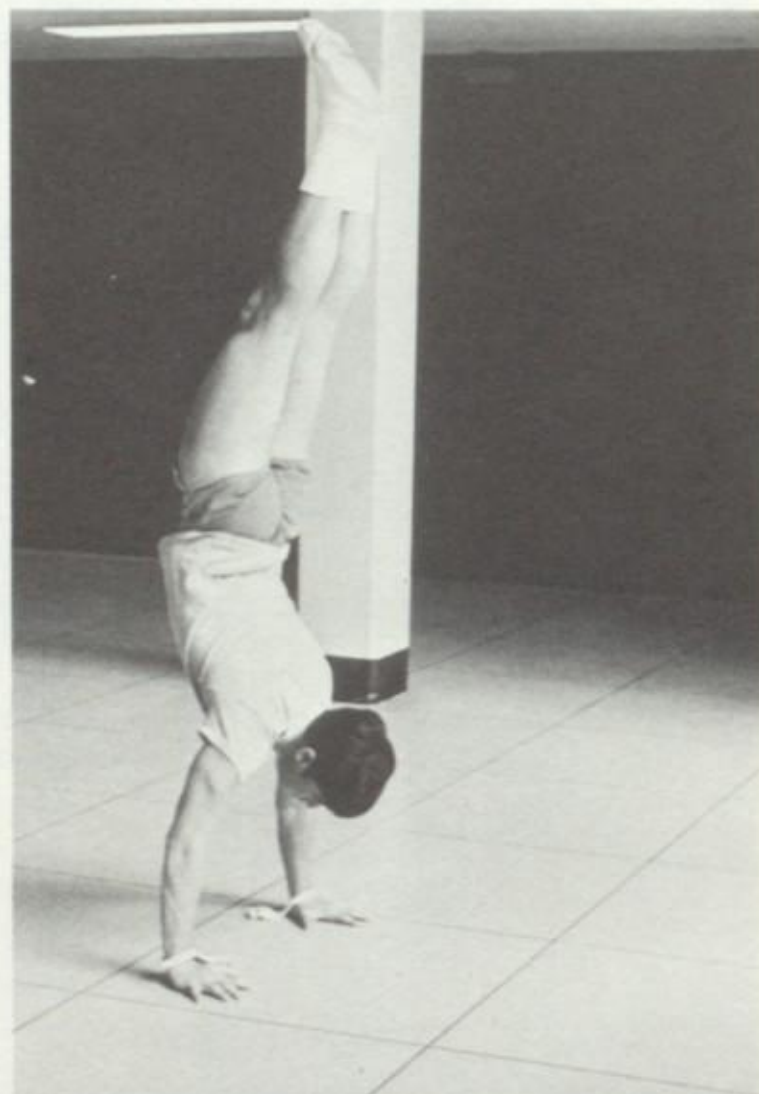

"Check Illinois law Article 6—22, Sentence 3."

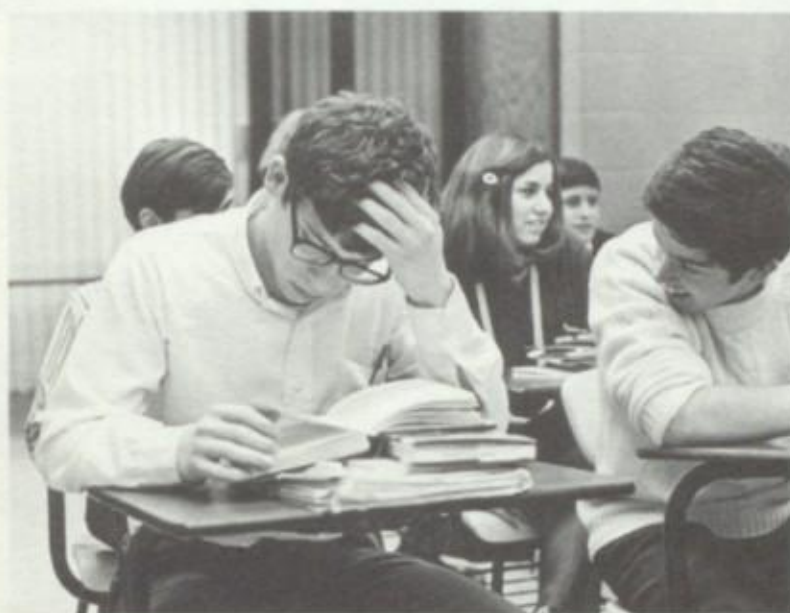

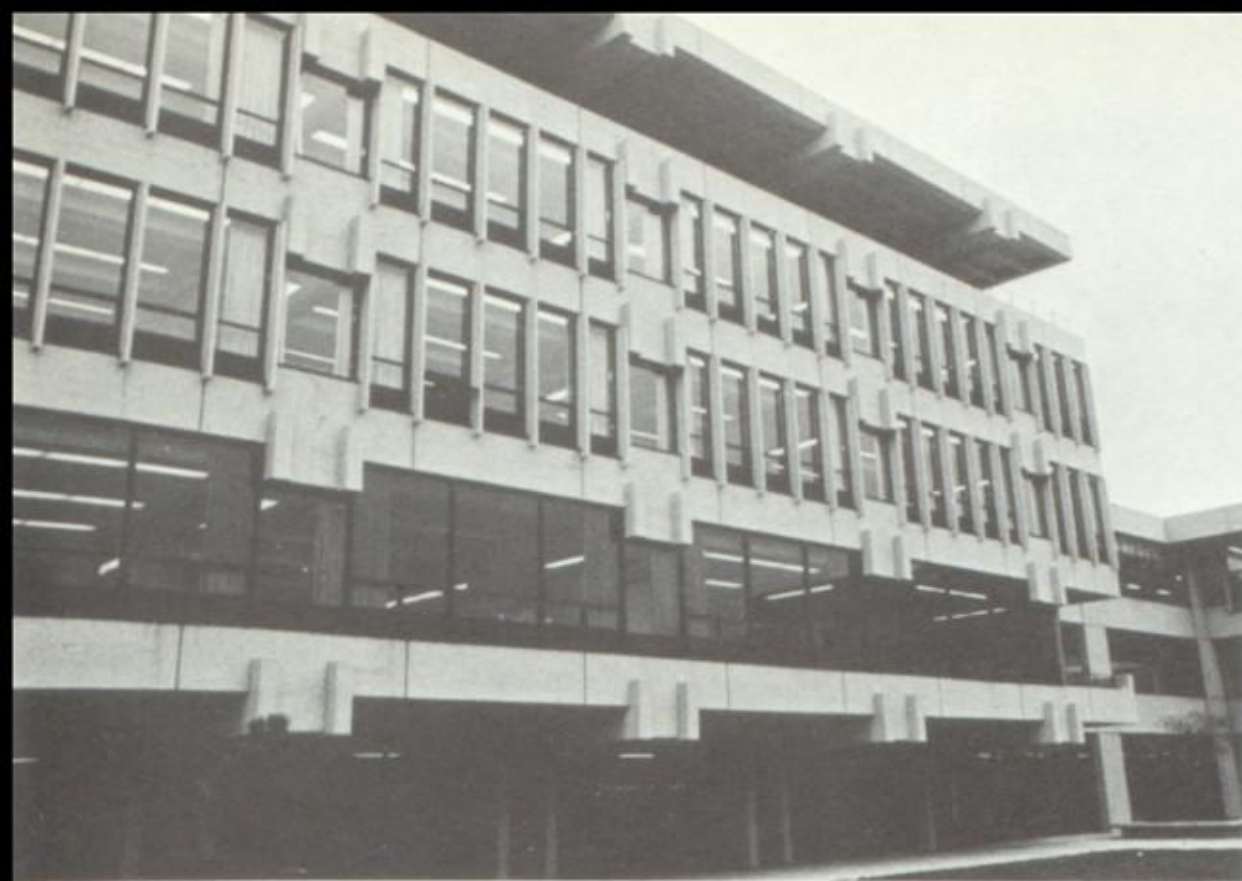

"I am here because my parents thought it was safer out here in the suburbs than in the city on the South Side."

"NT-W is where all my friends are and where all the activities are."

"To try and get an education and learn something."

"I'd like to hear this answer, too."

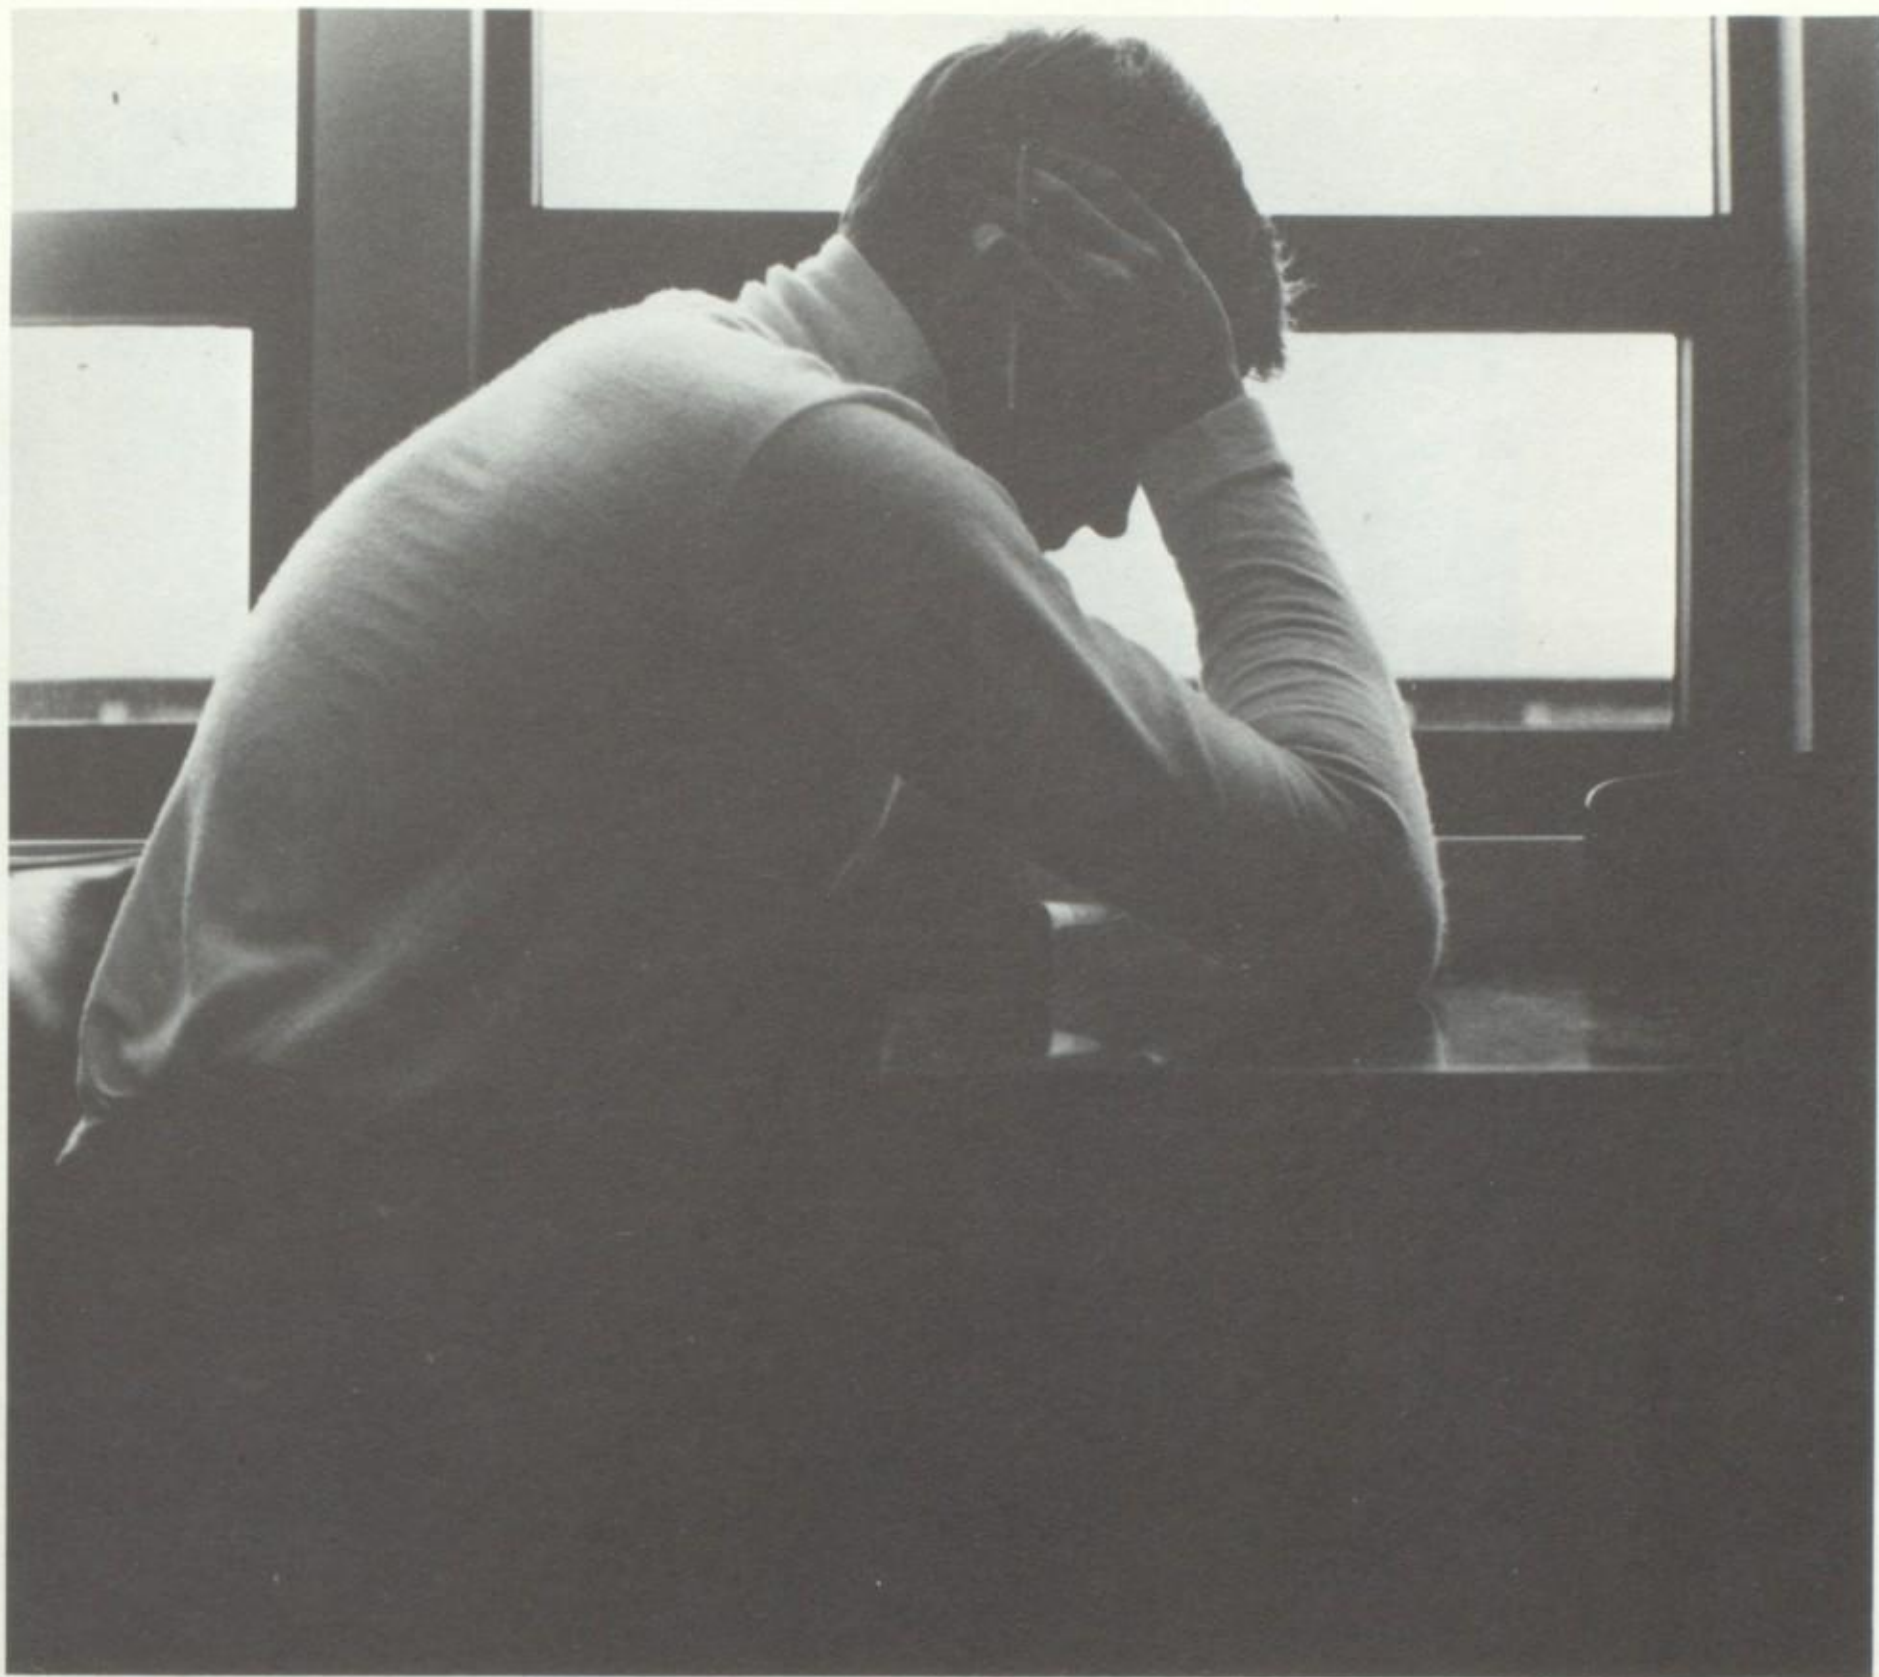

"Everything I've learned here will
fade into and out of importance
throughout my life."

"Indirectly, the great trouble with New Trier is that there is a gap between student and teachers. The teachers don't take the time to bring themselves down to some of the student problems. And students, with all the rules for good conduct, feel more and more alienated from them."

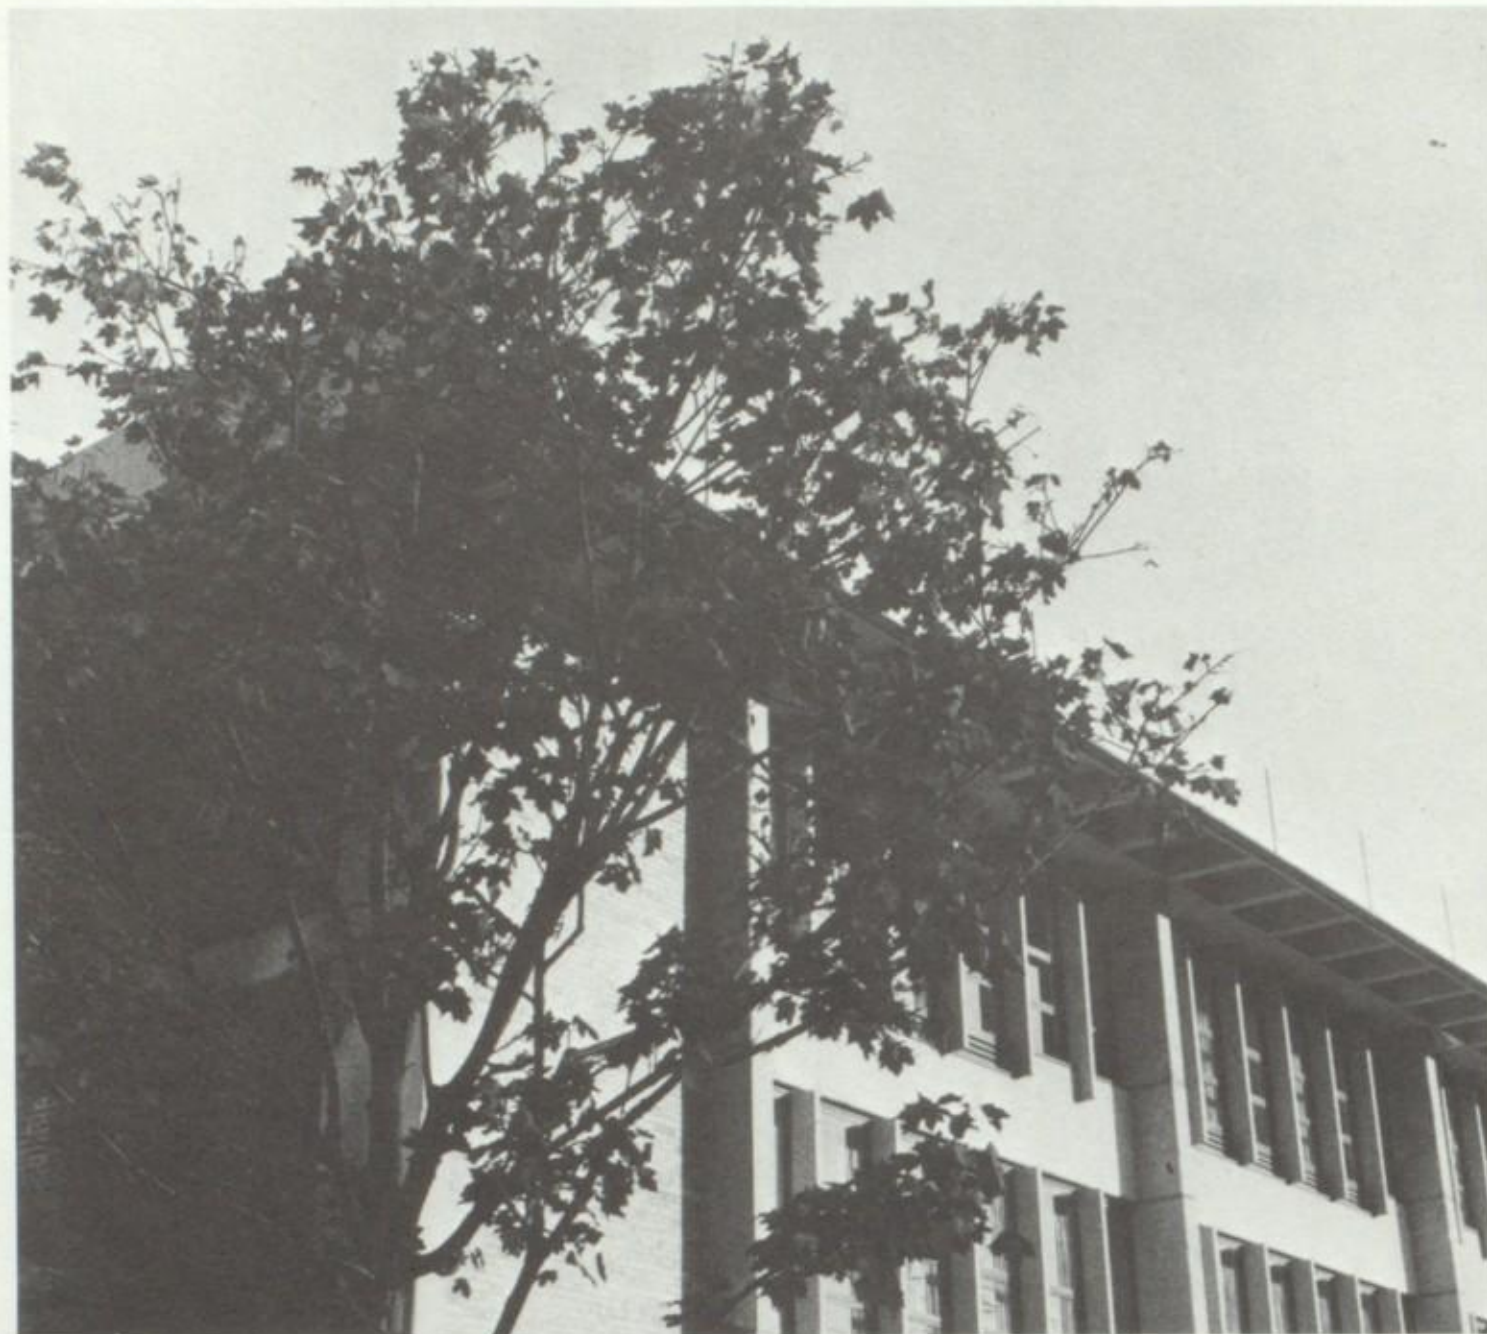

"I want to learn how to think."

"Able to like to be able to think clearly."

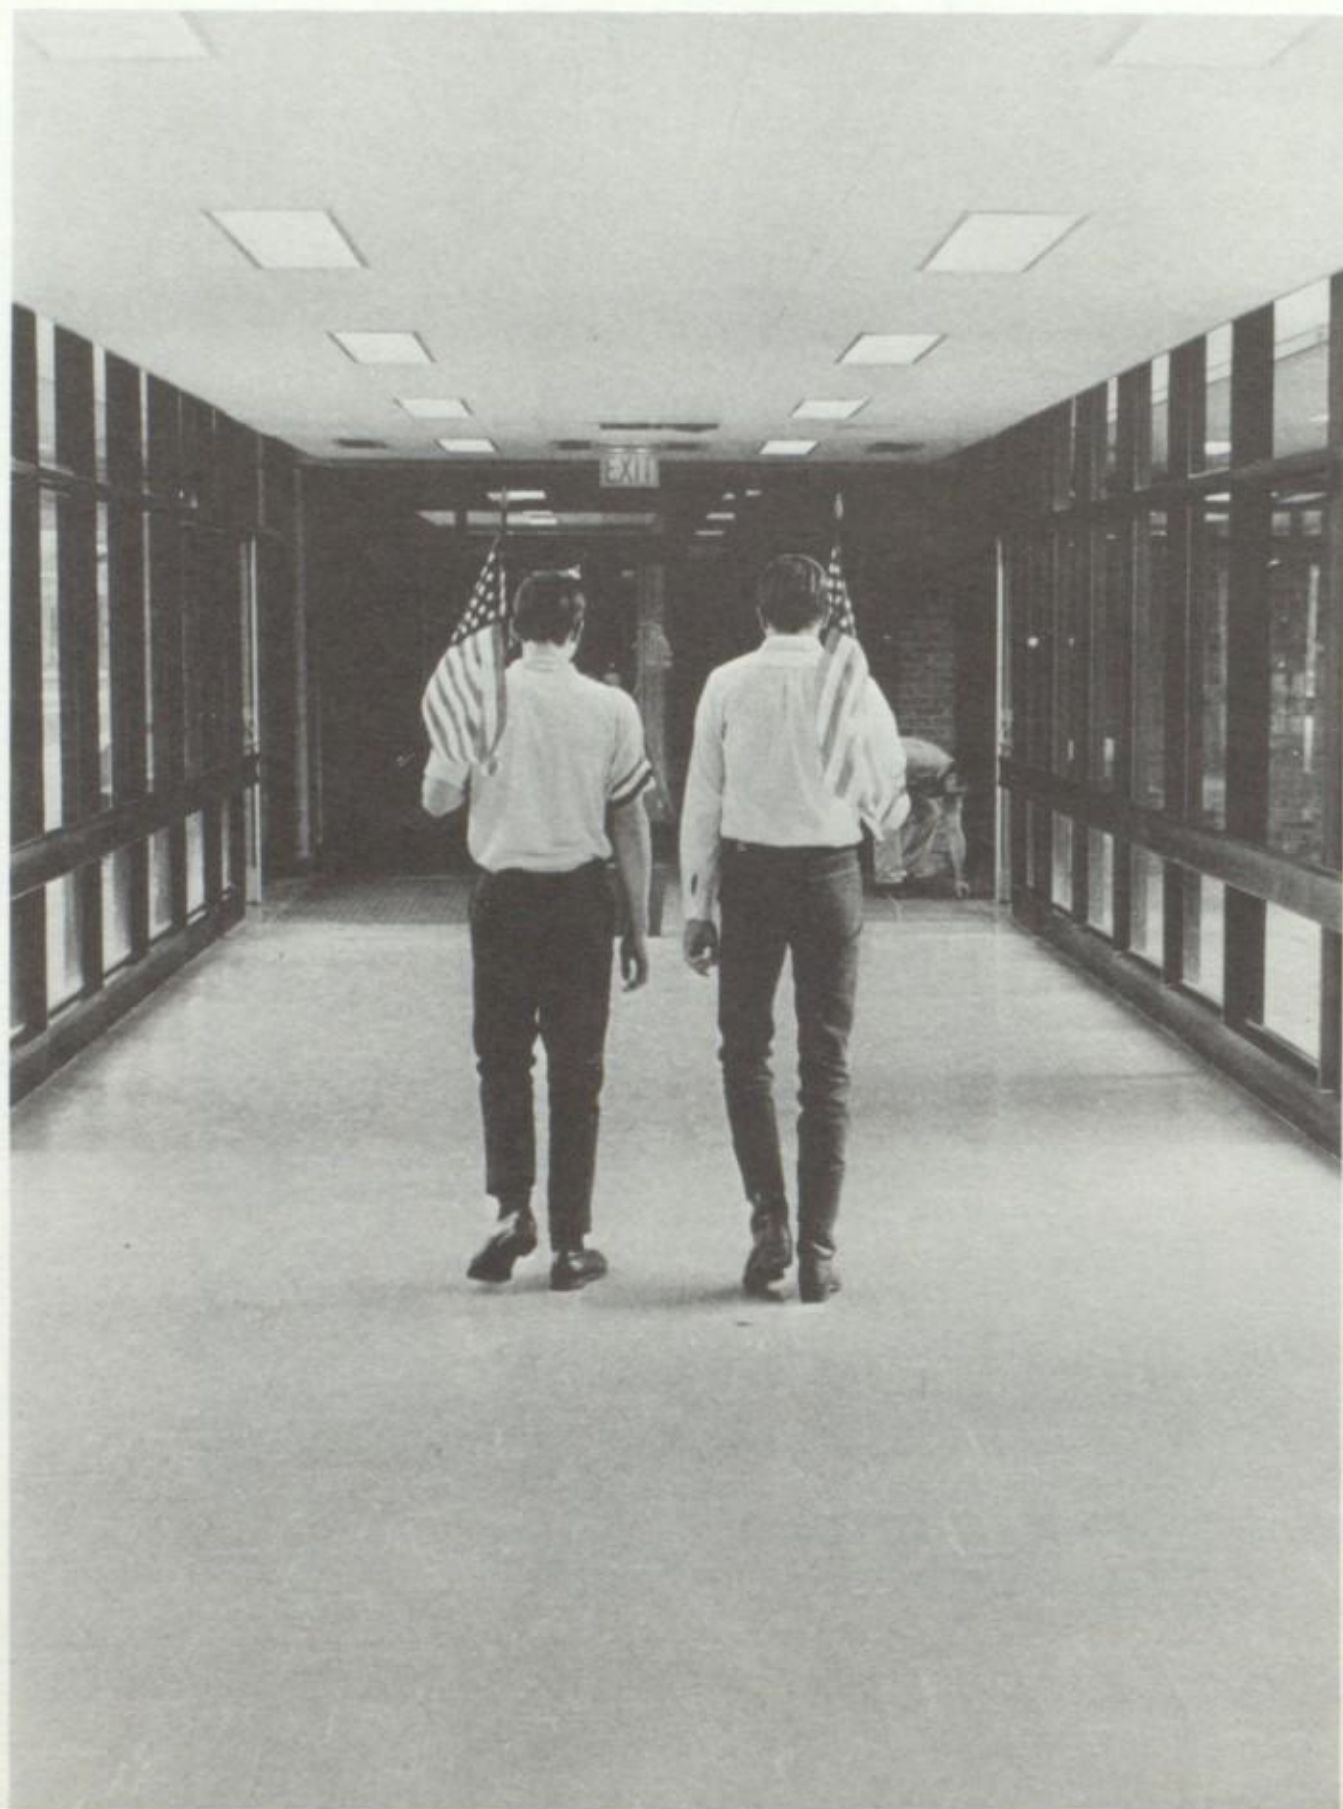

"This institution sometimes prevents people from thinking."

"I have achieved some good relationships with people, learned a few things, and wasted a lot of time."

The free-time system is a unique change for NT-W. What do you think of it?

"It needs more emphasis on *free*."

"It's rotten. Everybody just wastes time."

"The free-time system is a step forward for our educational system."

"Students are taking the freedom but not the responsibility."

"There really is no free-time system because they are 'giving' us something that they had no right not to give us originally."

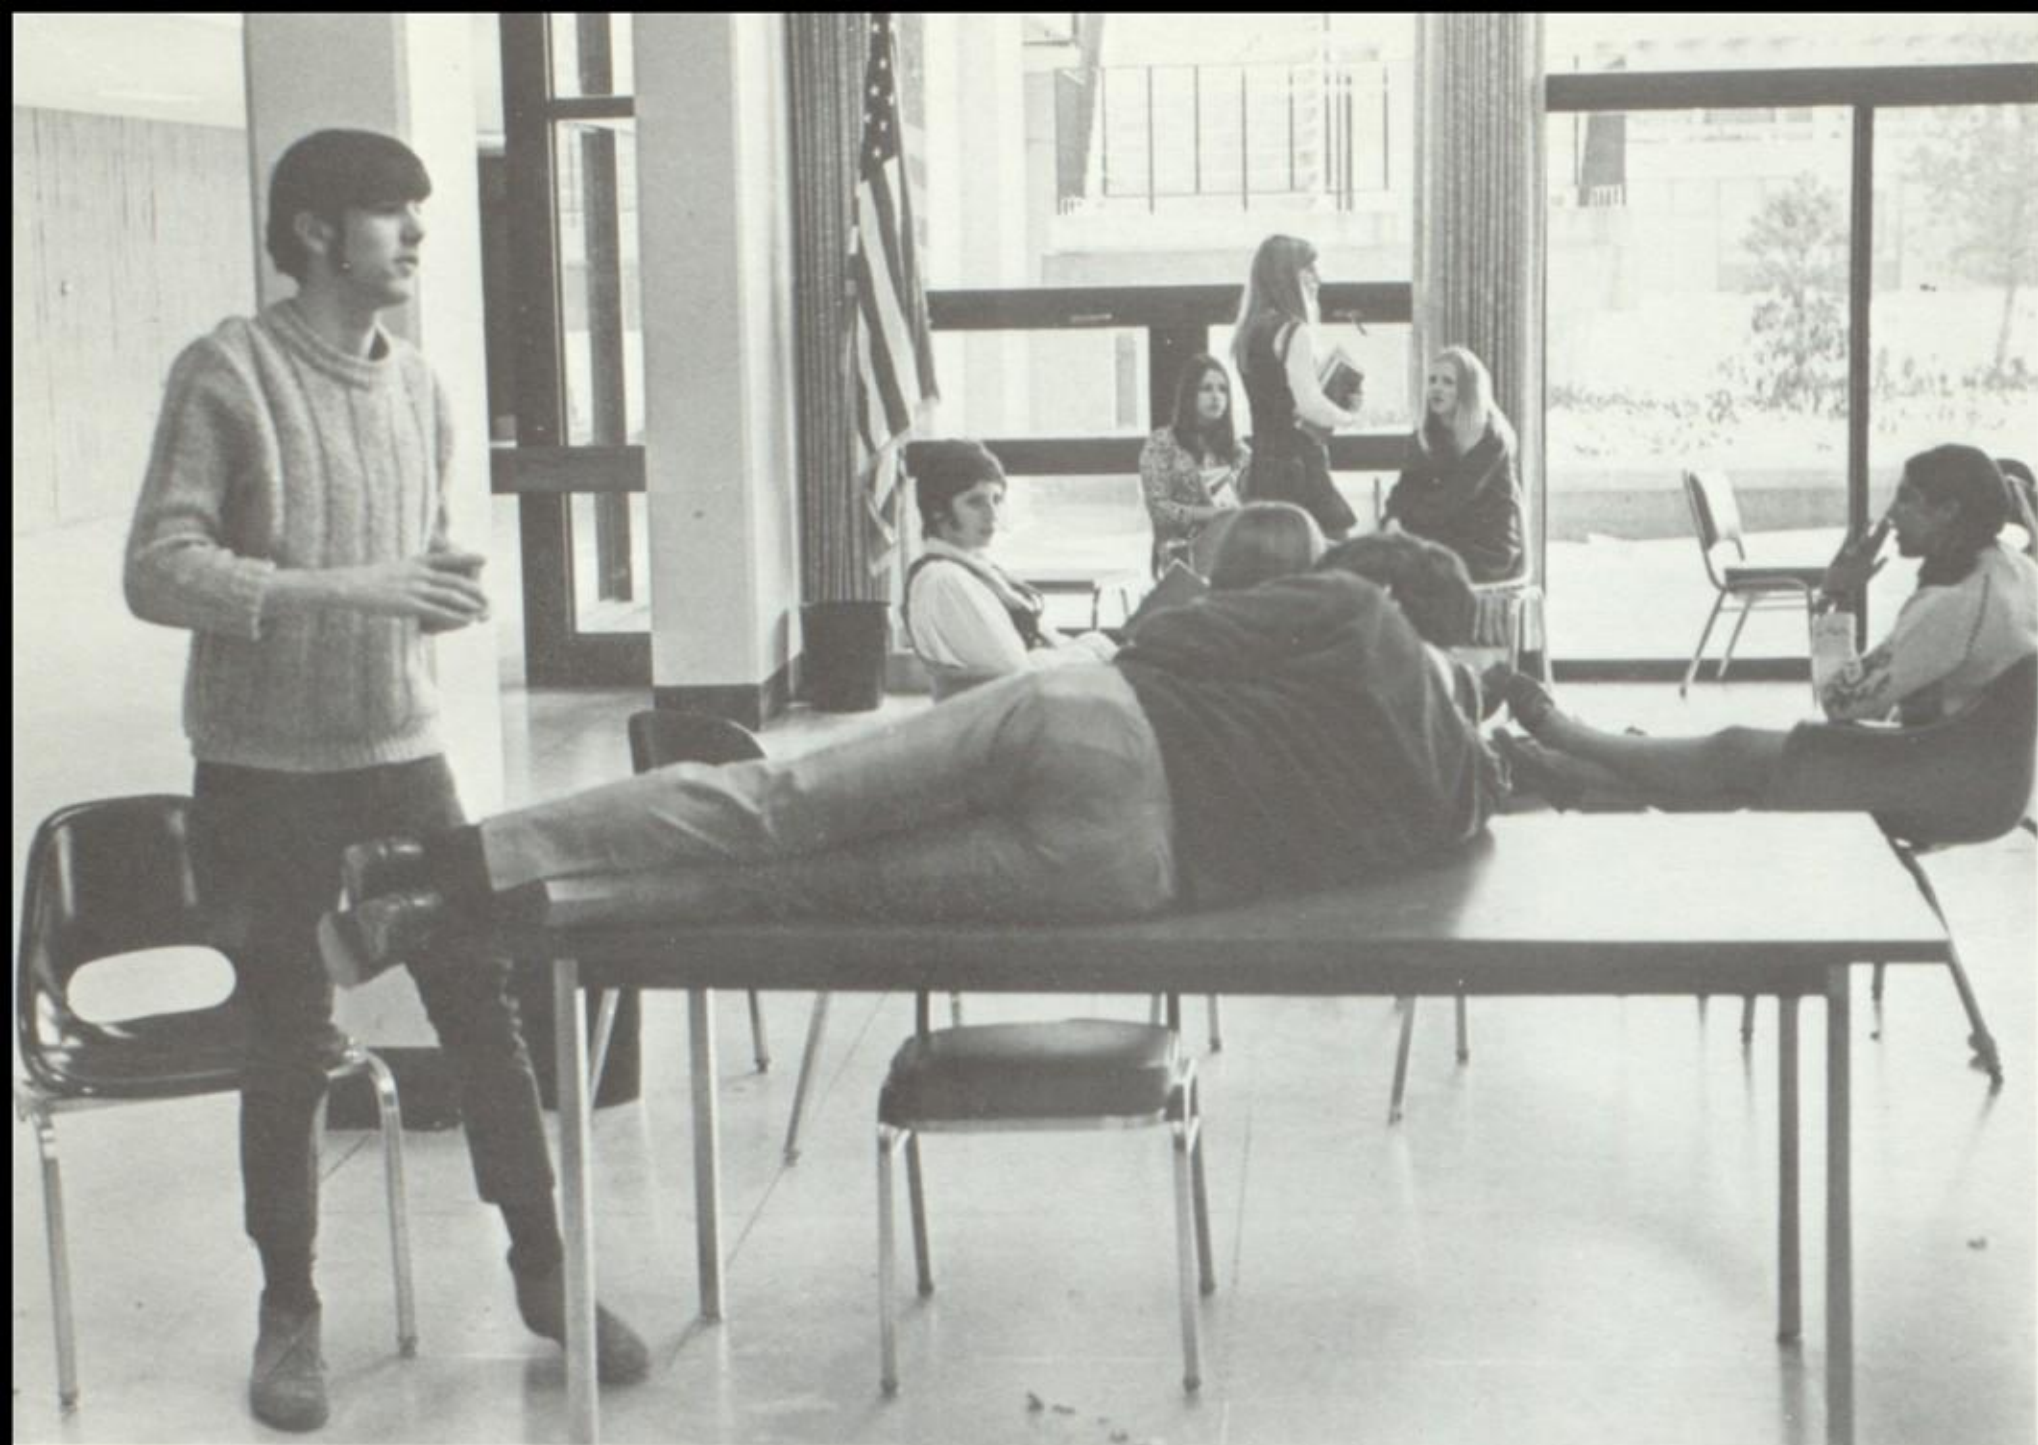

"We're moving toward an open campus. We must feel our way."

"It is undergoing growing pains and will and must mature."

"It is too early to tell. I feel that to make a valid judgment we should give it at least three years."

"It's good—it gives the students a sense of responsibility which still needs to be developed."

What would you do if you had an extra free period?

"In school—contemplate life. Out of school
—rejoice."

"I'd talk to people and wander around."

"Free in school, I go to a quiet place, a
place to talk, or a place where I can be alone.
(They're all here.)"

"Sit in sunshine—walk in open places."

Do you feel a responsibility to New Trier, that you owe it something?

"If students can't learn to serve in the school community, they'll never be able to serve mankind in the small, unnoticed ways which are crucial to a humane world."

"I owe NT respect."

"No, just not to wreck it."

"Yeah, I think I owe it at times, for sometimes they make me feel like more than just number 06625."

"The only thing I owe the school is to use its facilities in a way that best benefits myself."

"I owe nothing to New Trier because, as I see it, I owe nothing to everyone."

"I'm here because my parents make me. I don't achieve nothing. I hope I achieve getting into a good college. I don't think I have a responsibility. I think the free time system is very good. It's a chance for me to get away from everything. I think NT should let you out when you have free periods. There is nothing important I learned here."

"I don't feel a responsibility to New Trier or that I owe it anything. I'm going here to get an education, not to owe anything to New Trier."

"Because one is forced to go somewhere, does that mean he owes it something? A criminal doesn't owe a thing to jail. My parents pay for me so I can go to school. The school owes *me*."

"I feel a responsibility—but no more than to any other public facility I use."

"I owe NT a lot because it has given me a lot."

What is the most important thing you have learned at NT-W?

"Probably to be honest about my own limitations and to freely reach out for suggestions and assistance!"

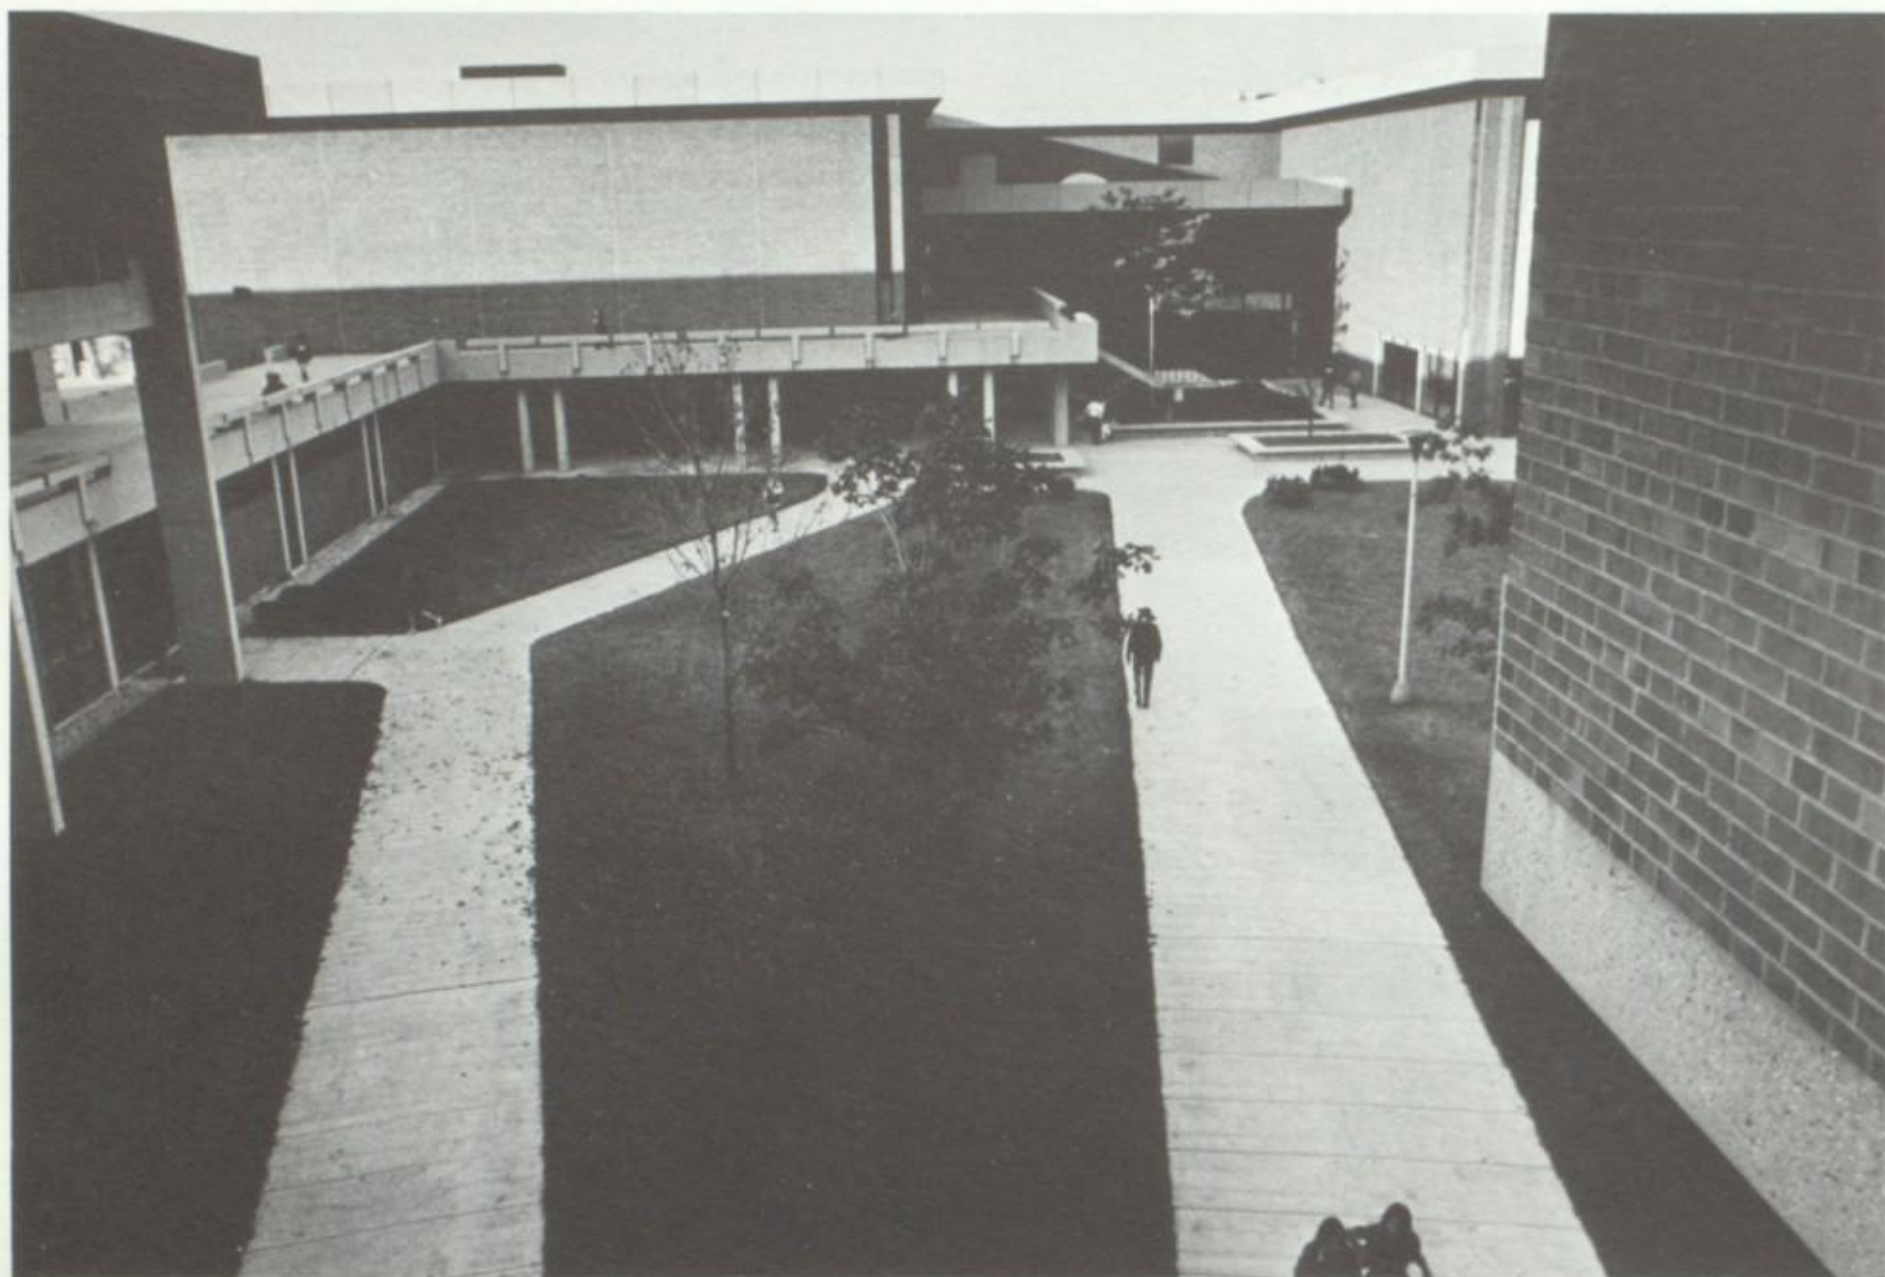

"To care about getting good grades so my phone doesn't come out."

"To question myself, my parents and society."

"To be yourself."

"It depends on when you ask me. I guess you could say I have learned peace, patience, benignity, endurance, kindness."

"Probably, the most important thing I have learned at NT-W is that there is always someone to talk to who will understand you."

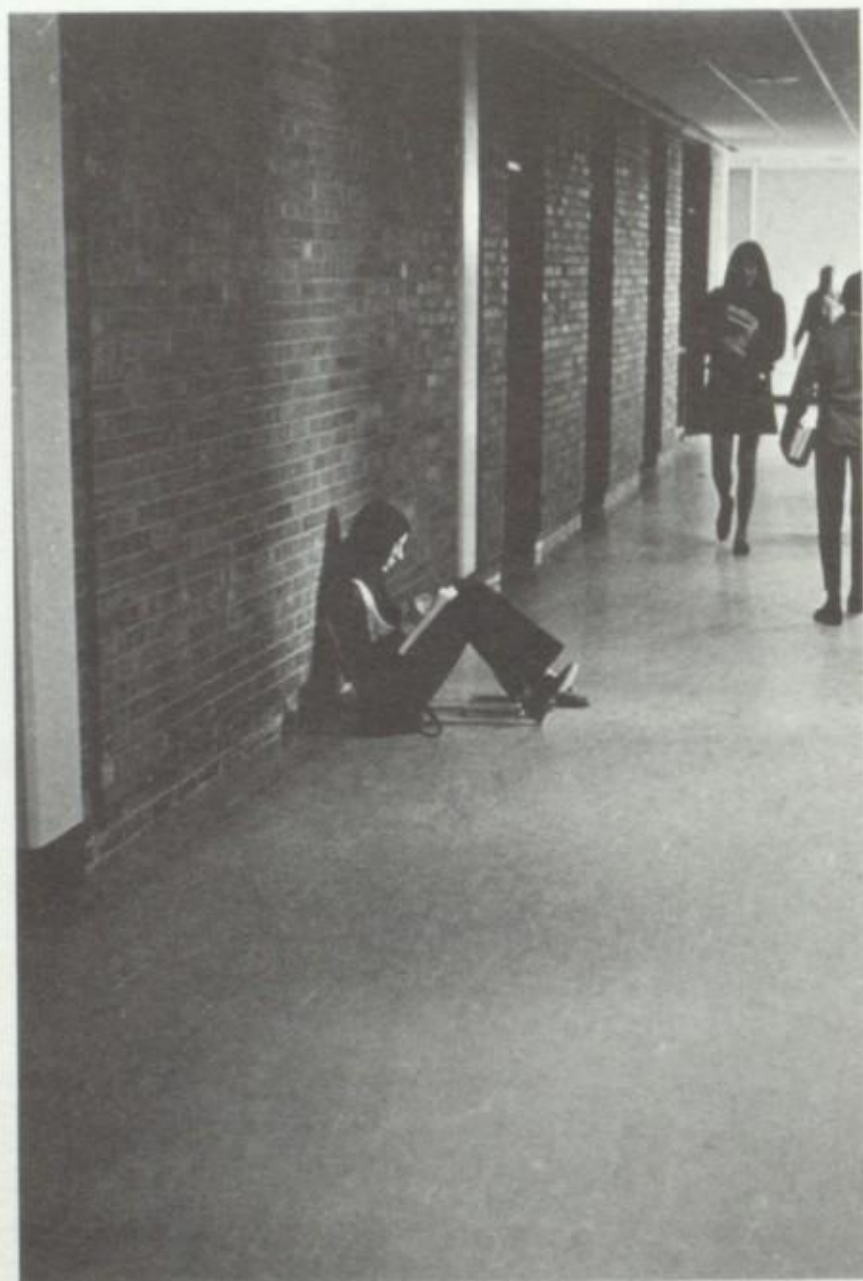

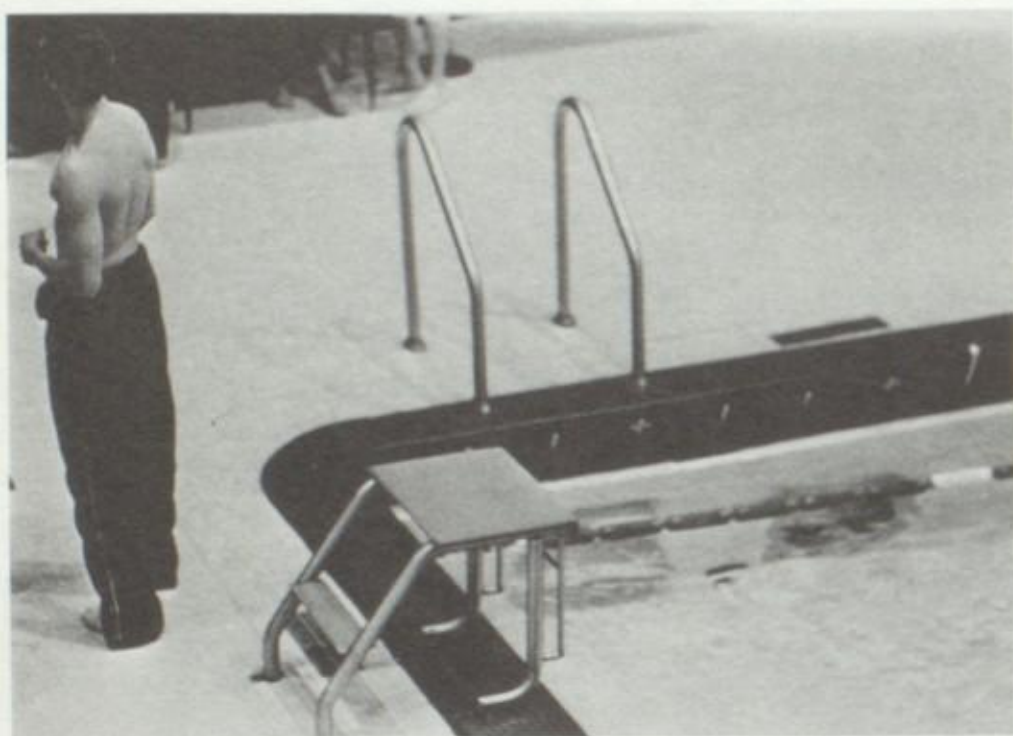

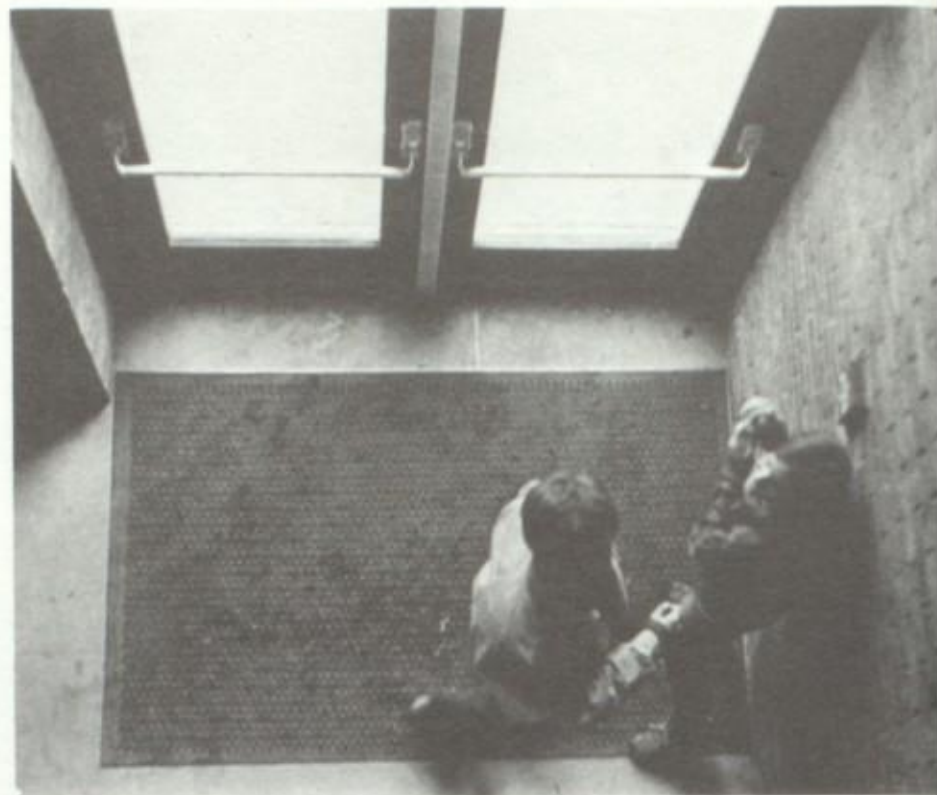

"I have learned things about others and myself. I do not, however, remember what the distributive property of multiplication is."

"The most important thing I have learned at NT-W is to lie. The truth is never good enough and it's better to lie."

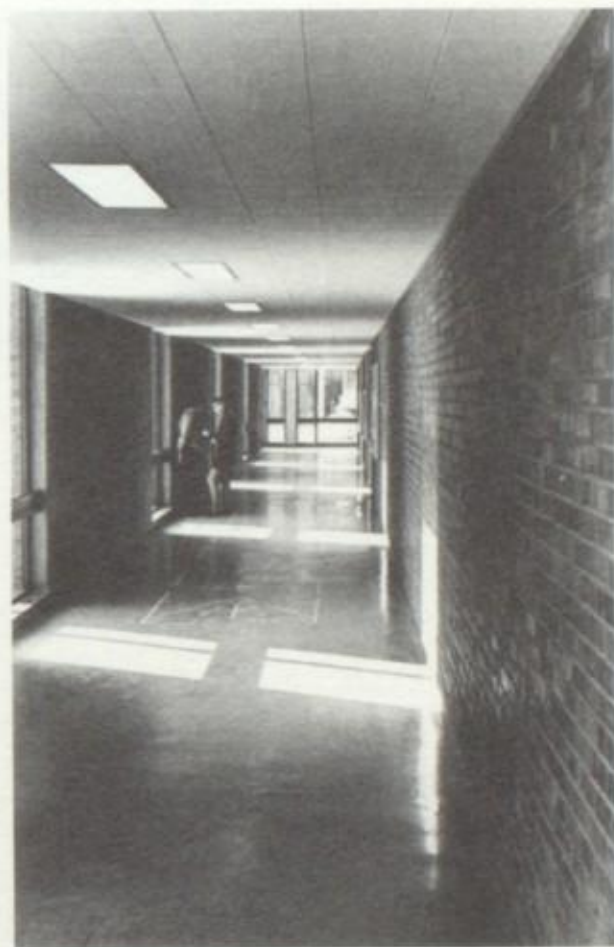

"I have learned to be open-minded and not to depend on other people."

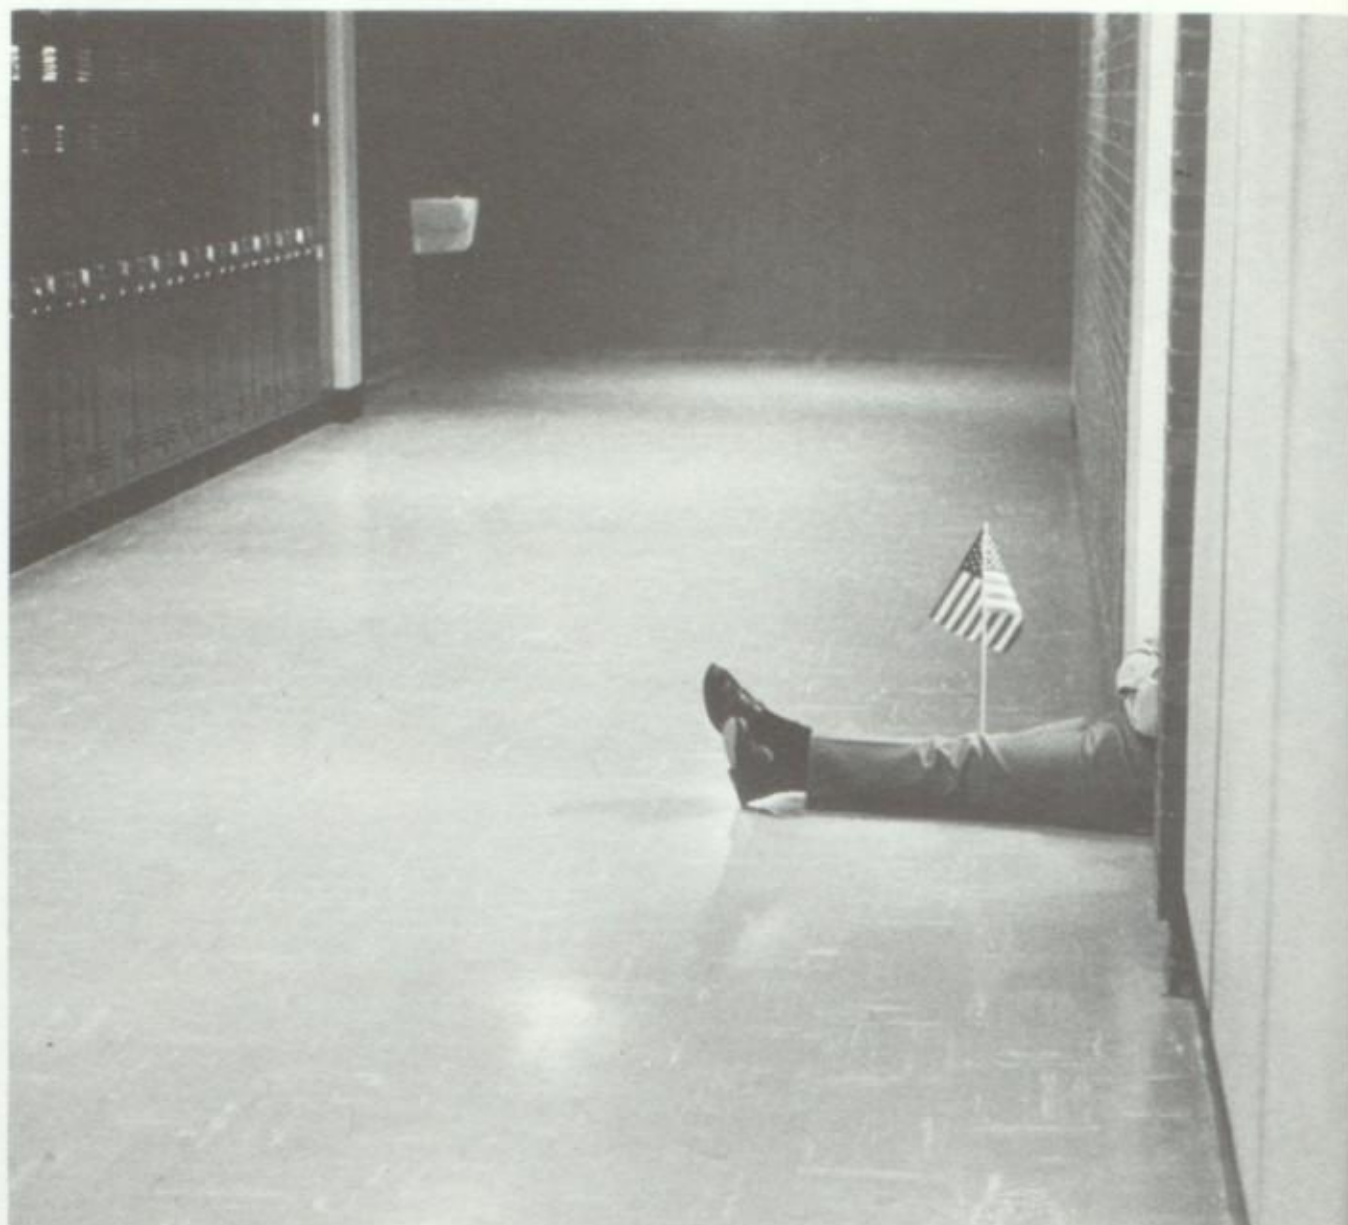

"What I've learned about people has made me learn more about myself. Without some understanding of yourself, you're nothing."

"Learning does not take place in silence."

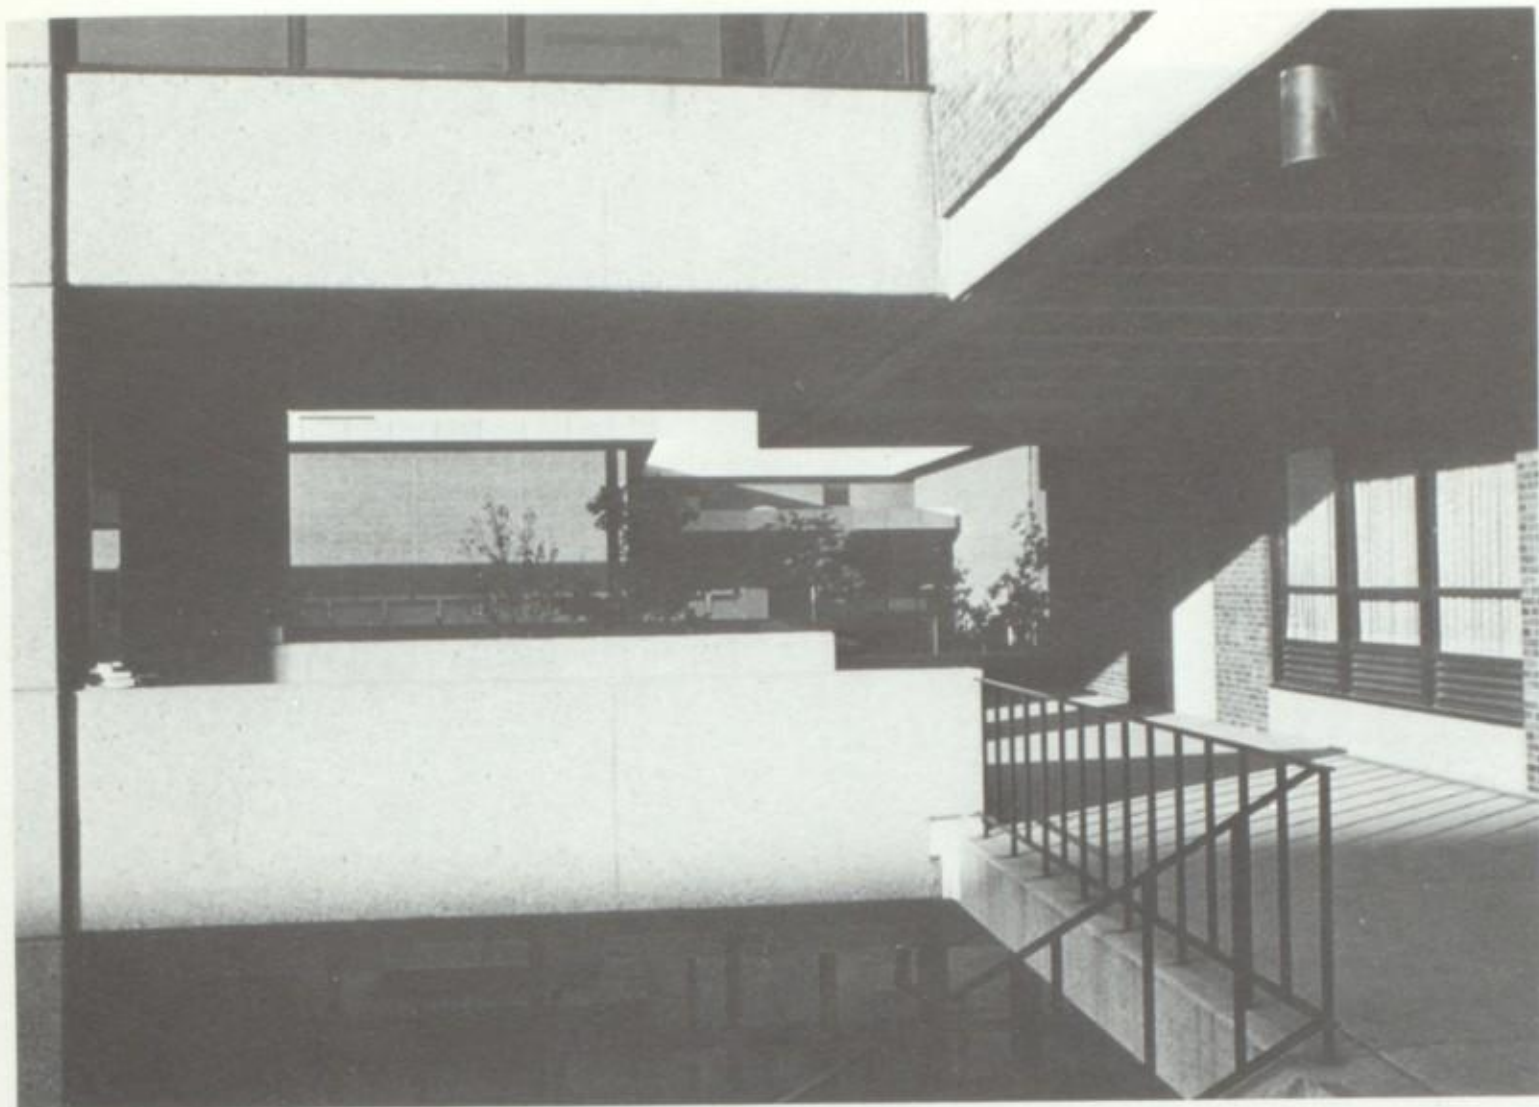

"I think the faculty outdoes the kids—the faculty is a lot warmer. They really do try to help the students."

"People really do want to help me."

"I learned that by the time you become a senior, you become a cynic about life."

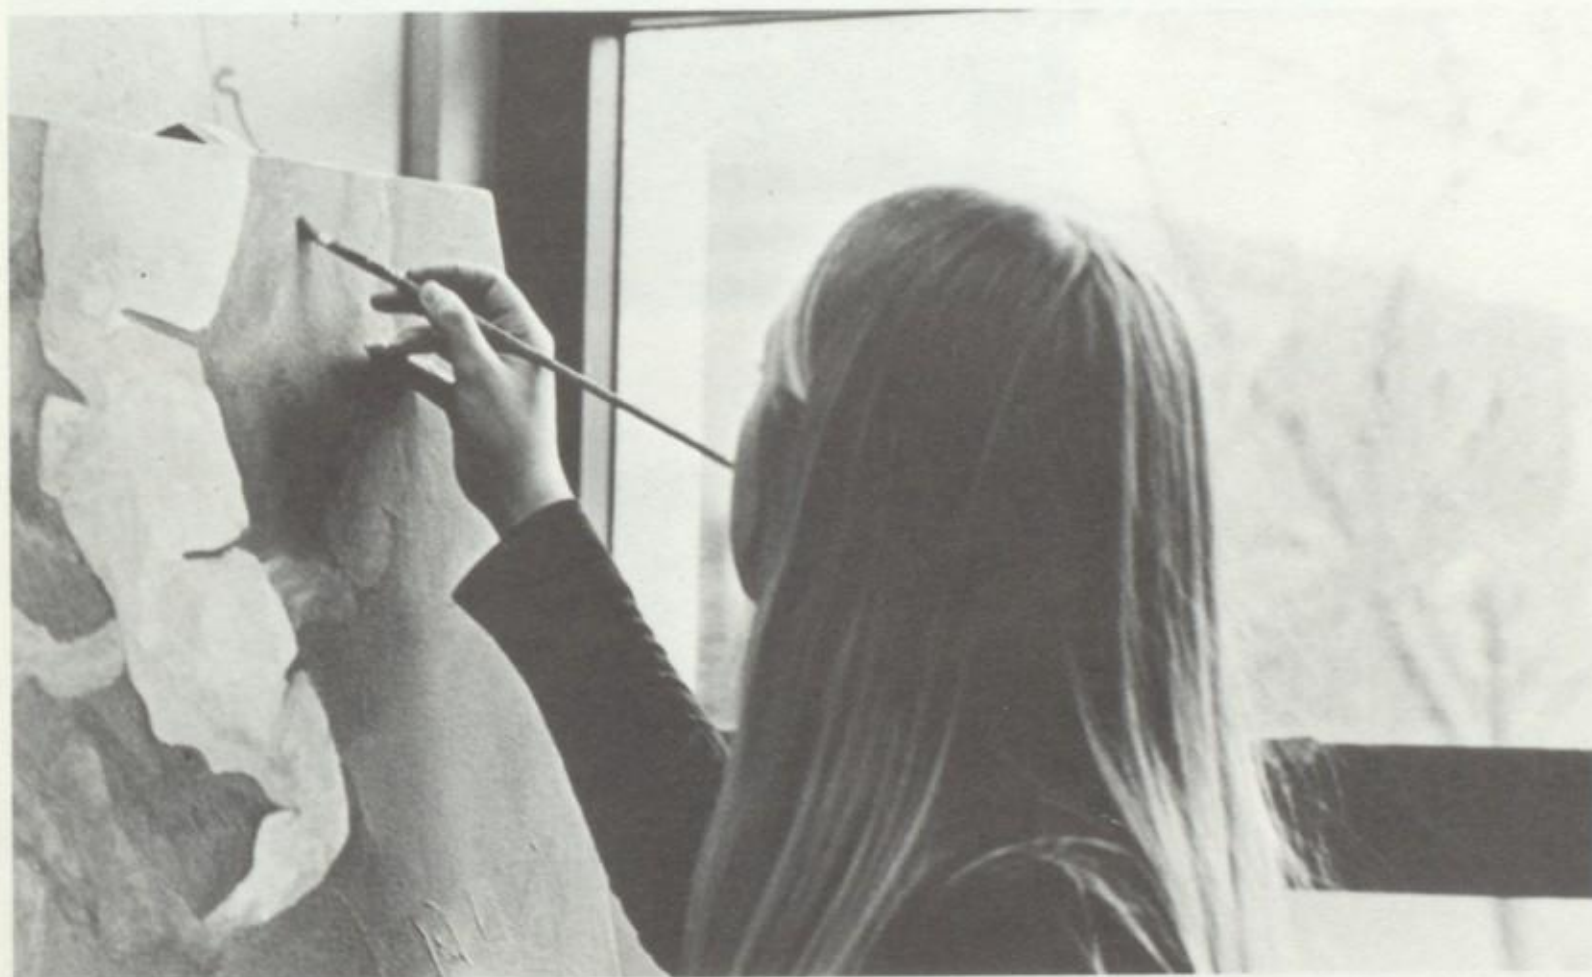

"I've learned that there is something at New Trier for everyone, you just have to search for it."

"I have learned that I
live in a sheltered world."

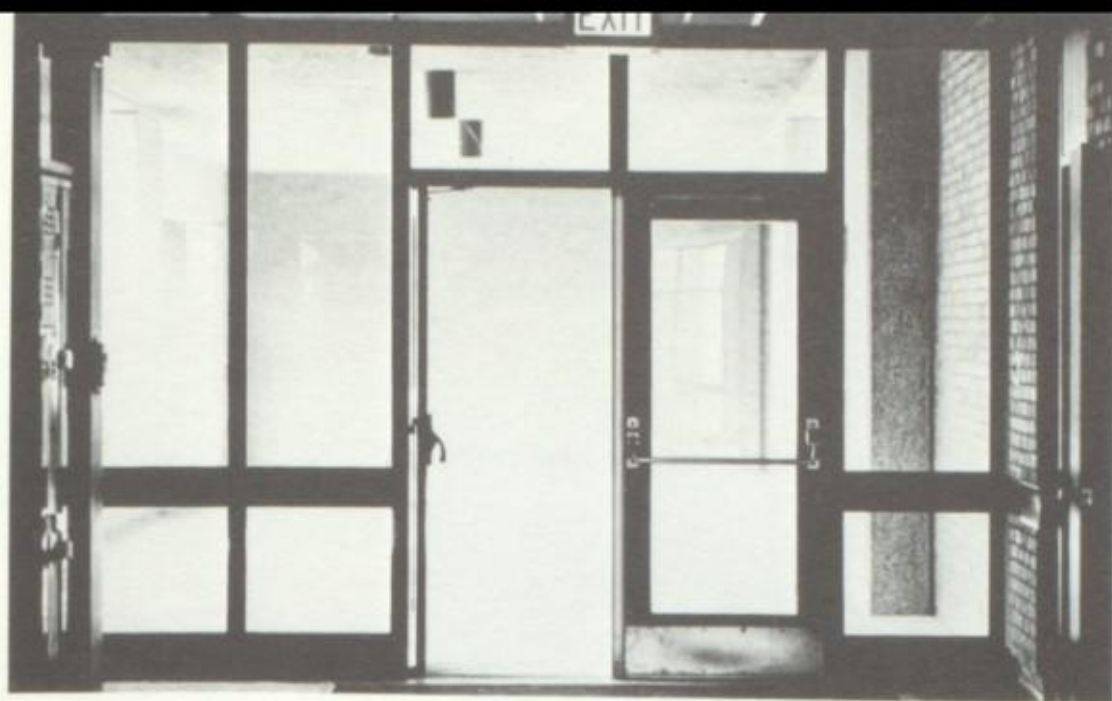

"School has messed
up my life."

"I want to graduate
and get out."

"If the people at NT-W
stopped worrying about NT-W
And started worrying about the
people at NT-W, we could get
down to education."

"Communication with a good education means universal
peace and understanding.
You can't just do your own thing."

ACTIVITIES

Rules Committee

"What is it?"

"Rules Committee is a part of the new free-time system, instituted after last year's confrontation. It's supposed to make the changes to keep the system running."

"What is it accomplishing?"

"The committee passes legislature for keeping the cafeteria clean, for the commons; I don't know if it enforces it or not."

"It's reassuring to know that there is a committee comprised of both students and faculty."

"It's sad that a lot of people don't know what it is, though. It was a school-wide election, after all. I suppose that's typical."

Rules Committee *Left to Right*: B. Gordon, Mrs. Thieleman, B. Mustoe, Dr. Guest, Mr. Zibart, C. Pava, Mr. Sanders, *Co-Chairman*. *Absent*: D. Dinkmeyer, *Co-Chairman*.

"If nothing else, Student Cabinet provides a source of communication between the student leaders and the administration."

"Activities are coordinated by this committee fairly well."

"It's a farce."

"The Cabinet did magnificent work in acting as an Ad Hoc Committee to plan the moratorium on Oct. 15."

"Now, however, the organization does little more except discuss controversies between Pep Club, Girls' Club, and Tri-Ship."

"Student Cabinet is *not* a means of communication between the administration and the student body. However, it could be."

"Through student council I have learned about the inefficiencies of the bureaucratic system at NT-W."

"It is not really a student council because only a small portion of students are involved or even interested."

"Many students at NT-W basically don't care about what happens to them in school—they are apathetic about their own education."

"Our main purpose is to represent the student body—have them come to us with ideas—that we in turn carry out. But have they been coming?"

"Student Council, ideally, should be the voice of the students, but students don't seem to be interested enough in making their opinions heard."

"The problem is kids just aren't interested in council."

"The problem isn't really apathy—it is a lack of communication on both parts."

"Student Council has no power. It has no power because it is only natural to be frightened by a group of 14–18 year olds making decisions that mean something."

"Right now it wheezes, gives the impression of not giving a damn, is often unresponsive and generally wheel spins."

"Its failure is the fault of everybody in the school. Its members are too lazy to do their jobs. The student body doesn't care enough to call them on it. The faculty and administration are too solicitous of incompetence to provide firm direction."

"I believe that council could and should be the most important organization in the school. It is the only organization that has the potential of being a focus for every segment in the student body."

"Kids only seem interested when something controversial comes up and obviously there aren't enough controversies to last a whole year and controversies shouldn't be created just to create interest."

"Student Council needs dynamic, aggressive and imaginative leadership to be effective. It also needs an issue to provoke student interest. If, in some way, it can cultivate the leadership and discover that issue, it will be a smash."

"Council must be updated. It should not be abolished because someday it will have power. It will be a long time, though, the way things are going."

"All that is needed is less talk and more work."

"One fact is obvious—
Something needs to be done!!"

Tri-Ship

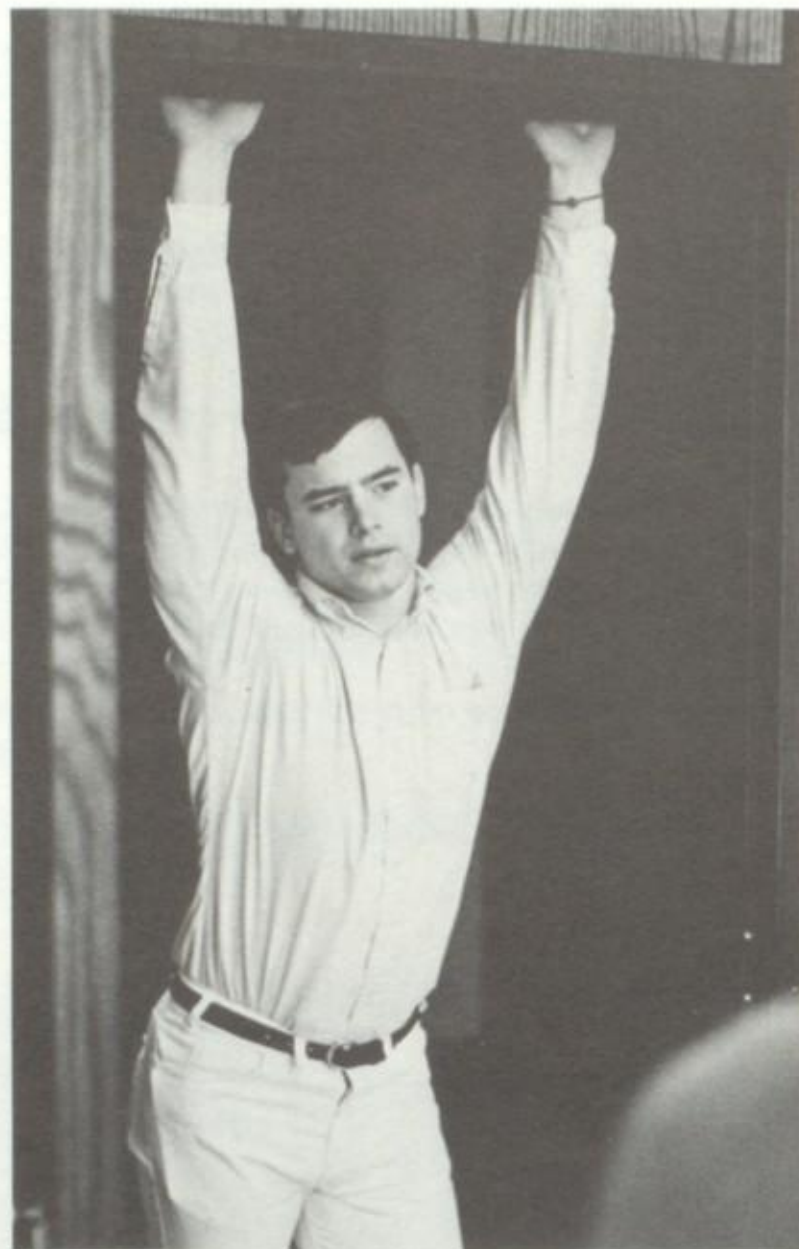

"This club can still have the three 'ships'—Citizenship, Sportsmanship, and Fellowship as it traditionally has; this year's board has helped break the ground, not rebelliously, to encourage new goals."

"There's no more prestige left . . . it's not a big deal to be in it."

"With a little furniture and a little more participation, Tri-Ship can go places."

"Student apathy is at the point where Tri-Ship cannot function as effectively as we would like."

"The new free time system has affected some of our services, but we hope to improve this very soon."

"We have a more united board this year, and we're working together to get more school participation."

"Tri-Ship has lost its appeal. Its purpose is a service organization but it still should have some kind of personal reward besides the old 'I've helped somebody' bit."

"Every year we have the same old charity drives, dances, and projects. We have to get something more stimulating and involving."

Girls' Club

"Girls' Club has made me aware of how hard the organizations work to plan activities for the students."

"It's too bad that everyone isn't interested because they are missing out on some beautiful experiences."

"I just wish there was some way of making everyone care and lose their apathetic attitude which not only hurts themselves but the school as well."

"Perhaps the best thing GC has done is put a little more friendliness into the school."

"Its purpose is to arouse spirit."

Is Pep Club accomplishing this purpose?

"I wish the student body would have more interest."

"I think it is doing an efficient job."

NT-W News

"The *NT-W News*' purpose is to keep the student body informed."

"Its purpose is to say something, say *anything*, anytime."

"A high school paper should be what the students want."

"I work on the *News* because I need something for an activity to put on college applications."

"I work because I enjoy it. It gives me a sense of accomplishment when the paper comes out and I see the product of my work."

"It has become a habit—I started sophomore year and it is easier to remain on the staff than it is to get a schedule change."

"It means a lot of unnecessary bother to me."

"I don't feel involved anymore—probably because I no longer care much about the paper."

"The *News* isn't grooving, but the staff is."

Vestiges

"*Vestiges*, especially last year's, is more of a commentary than a chronicle. This is a more useful role in a school that wants to improve."

"It should record the mood and images around the school."

"One of the purposes of the yearbook should be to provide a learning experience for the staff."

"It's to look up your pic if you're stupid, and to look in the photo essay if you're not stupid. Our purpose is to editorialize the school (but the school dunnoit)."

"I have a lot of free time and I like to do something constructive. That's why I'm on *Vestiges*, I want to help out some school activity."

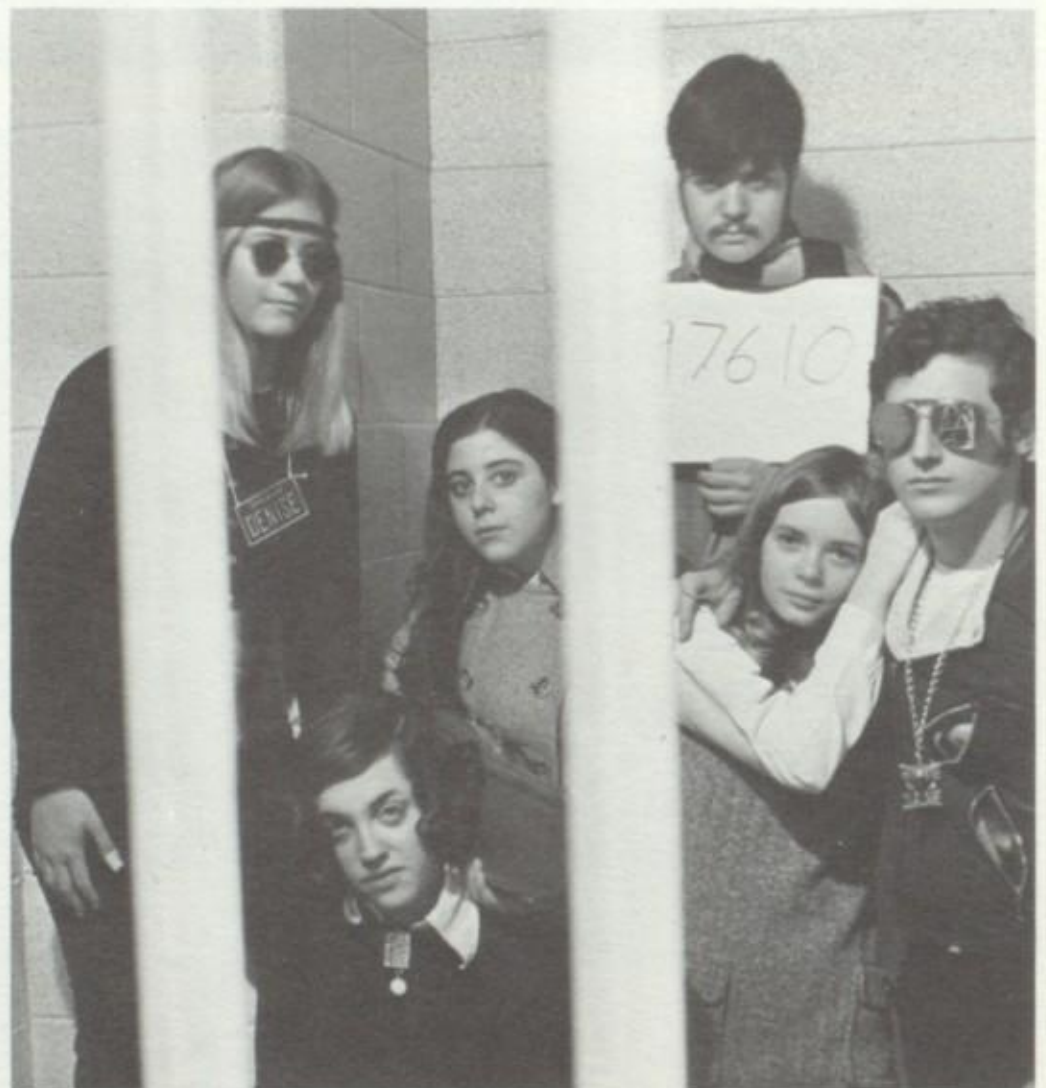

"I'm a Pep Club reject."

"The yearbook means getting to stay late enough to see Les and use the faculty lounge."

"I enjoy it and I like the food."

"Working late at night on *Vestiges* is a pain in the neck, especially when at 10 PM you discover all the bathrooms are locked."

"I guess I have the most fun staying late when there's not too big a hassle over the deadline and everyone seems to open up and be more themselves."

"You meet a lot of new people and make new friends, and not just friends during the show but people who will stay friends."

"The only thing that I didn't like was wasting a whole afternoon by sitting in the auditorium and then rehearsing on stage for five minutes just before the rehearsal ended."

"The only thing you can lose by doing a show is time, and we all waste so much of that anyhow."

"Mrs. Gallagher did a wonderful job on a bunch of clutzes, myself included!"

"One bad part of playing in the 'Guys and Dolls' orchestra, was being bombarded by chicken feed, cigarette holders, gloves, coats, etc."

Playboy of the Western World

" 'Playboy' was a great experience because of the spirit we had, I think, to really put on a good and fresh show, and also because of our terrific director."

"There were times of course, especially near the beginning of practices when it was hard to make the show fit, and be really interested in it. But because we had such a short time to work we were all very close, and all honestly trying to do our best."

"It was rewarding to believe in my character and see how much I had progressed since the first rehearsal."

"Opening night you're scared and jittery and very sensitive to everything around you."

"Well, I learned something very important. Now I understand that I am not the only person in the world and I don't have to be the center of attention on, or off stage. I also learned that there is a multitude of talented kids at NT-W."

"By being a member of 'Playboy' I didn't lose a thing other than my geometry grade."

"I have never had greater satisfaction in working with a cast nor greater pride in their performances."

Studio Theatre III

"The greatest thing about Studio Theatre III is, I think, theatre-in-the-round. You are so close to a real live, laughing, sneezing, talking, hiccuping audience! It's a crazy feeling . . . as if you really are living on the set."

"It's really a great play that had a lot to say about today, even though it was written in 1936."

"You really can't take it with you, so what's the point of working yourself to death?"

"The rest of the cast consists of the frosh-soph acting elite, beautiful people borrowed from various avant-garde circles around school, and other assorted oddballs."

"The only other play I've been in was 'Anatole' in 1964 in which I portrayed a French mouse, a very thrilling and exciting part, by all means."

"Our set is excellent (except for that God awful chandelier)."

"The only thing I disliked was having such a small part."

"Even the 'first timers' are good."

but high in quality."

We have no depth,
but what we have gives 100% all the time."

"Earliest man ran because he had to.
We run because we want to."

"Some people say that track isn't a sport.
They say, 'What's the sense
in running around in a circle?
What does it accomplish?'
It accomplishes this:
it develops a boy's ability in one-to-one
conflicts which he will face
all his life. Most important,
it develops every muscle in the body."

Baseball

"I think we do really well . . . we've got good hitting."

"Come on now, rakitak!"

"I came to every game."

Golf

"We're going to have a great season if only Timmis doesn't make us get a haircut."

"The most important part of golf is concentration. When I'm taking a shot and an airplane flies by it is distracting. If I can have my hair covering my eyes and ears I will not be distracted."

Fencing

"A good fencer must be quick, competitive, able to out-think his opponent, and good to his mother."

"It's the only sport where the object is to kill the other person."

"A lot of people refer to us as weaklings, queers, or puppies . . . usually those not out for sports themselves."

"Well, I don't know . . . but any guy that runs around in white tights. . ."

"You've got to learn to keep that point down."

"It's not as good as the stuff in the movies, but it has its good points!"

Why Education?

"Questions like the above require quiet concentration and thought. There is no time to answer these—or even to think about them. I have to fill out ditch slips for faculty study, entertain four large classes of freshmen per day, grade papers, and sleep. According to a 40 minute sequence. If I thought about learning, or education—I'd quit—because so little of it occurs during the hours of 8:15 and 3:30 pm. So it's a job—You gotta eat."

STUDENTS

Seniors

"The only privilege I have that the other classes don't is that I don't have to come back next year."

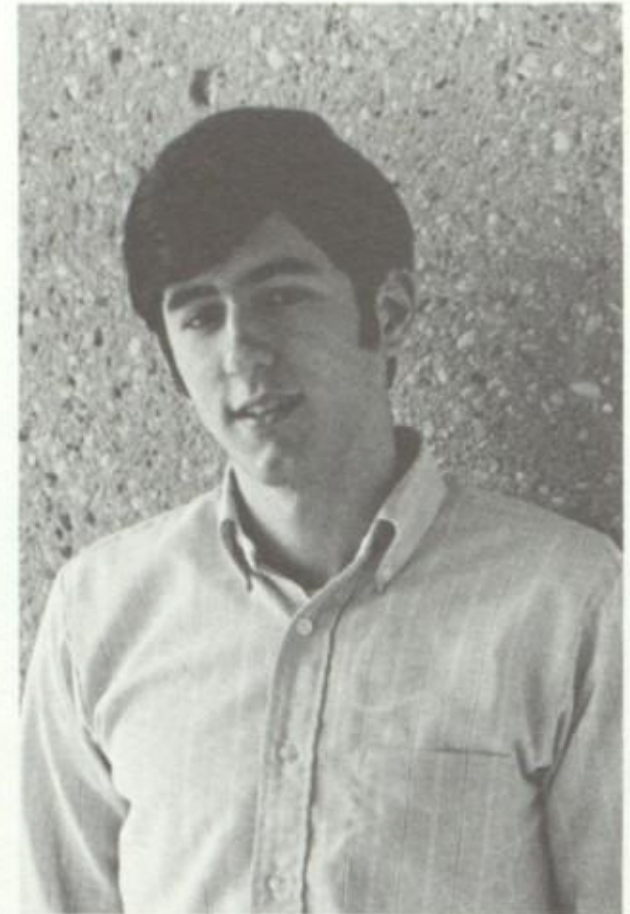

"NT-W has been a real experience. I've learned a lot, even though I didn't learn it all, and I realize that there's a lot more to life than homework and a part time job. NT-W has taught me about the one thing I thought I knew everything about—myself."

"Being a senior means you can take elective courses and learn something for a change."

"I feel trapped. I feel like my senior year is irrelevant to my ultimate education. It's something I have to struggle through to get something I want—a college education."

"It seems to me that my four years in high school were a real waste. There were so many things I wanted to do that I never got around to. To me, education was secondary. I wanted to be a somebody in the school. I turned out to be a nobody."
